SWOSU Hosting Robotics State Championship on February 22

Over 400

students from 40 Oklahoma schools are participating in a robotics competition this Saturday, February 22, at Southwestern Oklahoma State University in Weatherford.

Over 400 students from 40 Oklahoma schools will participate in the 11th annual First Tech Challenge Robotics statewide championship this Saturday, February 22, at Southwestern Oklahoma State University in Weatherford.

This year's game, SKYSTONE presented by Qualcomm, is a Star Wars themed event. Madeline Baugher, one of the organizers, said humans and droid allies work together to build a better world as citizens of the galaxy. Teams will cooperate and compete to raise buildings for a new city.

The students in grades 7-12 have to design, build and program a robot to move blocks from the construction zone to the building zone under skybridges. They create a structure that pushes into the skies to build a superstructure of the future. Each team will participate in six timed qualifying events. Eight teams will be selected to compete in the finals tournament.

The public is invited to view competition matches from 9 a.m. until 3:30 p.m. in the Pioneer Cellular Event Center (PCEC) on the SWOSU campus. Admission is free.

“This is exciting to see the unique and innovative designs of over 400 students,” Baugher said. “It will be a fun-filled activity.”

Participating teams include:

Name	City
M.I.T (Muskogee's Innovative Team)	Muskogee
Y-Not Robots	Ada
LIGHTSABERS	Oklahoma City
Warrior Bots	Okarche
RoboComets	Tulsa
Commandobots	Tulsa
Team Medusa	Newcastle
Radical Robotics	Mustang
Monsters of Mechanics	Mustang
The Bazinga Project	Broken Arrow
BC Robocats	Blanchard
The Lab Rats	Newcastle
System Overload	Frederick
CADFish	Oklahoma City
Cybernetics	Frederick

BearBotics	Noble
Project Peacock	Tulsa
The Level Ups	Blanchard
Atomic Gears	Shawnee
Merritt Oilers	Elk City
The Midnight Ostrich Runners	Broken Arrow
Wyldcats	Chouteau
Mouse Spit	Tulsa
Revolutionary Robots	Oklahoma City
Prototypes	Newcastle
Irish Steel	Oklahoma City
Null Sector	Coleman
Turpinators	Turpin
Project Agnizab	Broken Arrow
Grove Middle School	Grove
Staticats	Checotah
Milburn Robotics Club	Milburn
inside joke	Tulsa
