

Technical Careers Event Slated Wednesday at SWOSU

02.10.2014

SWOSU's Career Services office, with assistance from the Center for Economic and Business Development, will facilitate the second annual Technical Careers Event on the Weatherford campus this Wednesday, February 12.

The event is held in the SWOSU Conference Center and begins at 9 a.m.

The Technical Careers Event is a field specific career fair that is open to SWOSU students in the Department of Engineering Technology. Career Services distributes students' resumes to participating employers prior to the event, and those companies select students to interview at the fair. The event also includes time for networking and a luncheon.

Thirty students and 10 companies, both local and national, are registered to attend.

Coordinator of Career Services Jonna Myers said that career fairs are shifting to this more intentional and specific model in which the student and the employer have a more personalized and tangible experience.

For more information, contact Myers at 580.774.3233 or jonna.myers@swosu.edu.
