

SWOSU Students Participate in Technical Careers Fair

02.25.2015

Southwestern Oklahoma State University recently hosted its 3rd annual Technical Careers Fair on the Weatherford campus. The event was organized to connect juniors and seniors (pictured) majoring in the fields of engineering technology, industrial technology and computer science with organizations and businesses for full time work placement and internship possibilities. Students were able to participate in interview sessions with various employers before having networking time and lunch sponsored by the Center for Economic and Business Development. Students interested in participating in this event in the future should contact the Career Services office at 580.774.3233 or careers@swosu.edu.
