**Candiates seek ways to court millennials**

**By Jennifer Steiner**

Staff Reporter

The election is just around the corner, people have registered to vote, they’ve been having their Facebook arguments, and yet, there is little hope that the millennials will cast their ballot.

“Millennials have surpassed Baby Boomers as the nation’s largest living generation,” according to population estimates by the U.S. Census Bureau.

Millenials are defined as those ages 18-34 in 2015. According to Jamison Foser, writer for NextGen Climate, people in that age range can influence the elections but only if they are motivated to vote.

Although the millennial generation is the largest generation since the Baby Boomers came of age, the only way they can affect the election is if they go to the voting booths and cast their ballot.

Since the millennials have grown in voting age, it gives them a significant influence over American culture and politics, according to Foser.

Some standout players on the team include senior Courtney Flores, who has allowed 1410 digs, and 1001 assists on the season so far. She is the school record for single season digs by a freshman.

With all the individual achievements, the team mainly prides itself in their defense and ability to work together as a team. “That is one thing that we have been very strong in,” said Coach Collins. “Our players love each other on and off of the court, and that is a great sign for our program.”

With post-season just around the corner, Coach Collins and his team believe that they have what it takes to take history.

“We firmly believe as a team that we could repeat as Great American Conference Tournament Champions, and with the next two years as the Lady Bulldogs,” said Coach Collins.

The team has an outstanding number of 1743 kills, 1410 digs, and 1001 assists on the season so far. They currently stand at the fifth place spot in the GAC Volleyball Standings.
