SOUTHWESTERN OKLAHOMA STATE UNIVERSITY
SURVEY OF STUDENT OPINIONS
 (Used by permission of ACT, Inc., 2008)
Spring 2008

The Survey of Student Opinions (SOSO) assesses students' perceptions of the importance of, and satisfaction with, a full range of programs, services, and environmental factors at the college they are attending. Also included are an extended set of background items and a set of items related to students' impressions of, and experiences at, the college.

The SOSO was utilized for the second time this year; it was approved to replace the Senior Survey, Student Satisfaction Survey, and Graduate Degree Survey. Southwestern results of the SOSO are compared nationally through ACT, Inc. with normative data based on 20,824 student records obtained from 39 colleges that administered the SOSO between July 1, 2003 and June 30, 2007.

A stratified randomly selected group of students were asked to complete the SOSO that was made available via the internet by the Assessment Center. The online survey was accessible to 916 students; it was completed by 144 respondents. Results have been tabulated, and for the 2007-2008 academic year, the response rate was 15.72 percent; a drop from last year of 14.85 percent (from 30.57 percent).

All Southwestern services except parking are more satisfactory than services at most other colleges according to the national norm. Compared to last year's survey results, all but three areas on the Southwestern campus showed an increased satisfaction level (two of those three areas had only 1 or 2 one-hundredths of a point difference). According to this data, students are satisfied with most of the services that are of importance or great importance to them such as financial aid, library programs, student health/wellness, academic advising, and computer support. Students would like to see improvements made to parking facilities.
