Activities on SJC campus are varied. Pictured on these two pages are the Student Senate and their officers. Our school secretary has a busy day each day and our pool table also attracts a lot of attention. All in all life at SJC is very exciting.

Work in Microbiology and X-Ray are just a portion of the extensive training that Medical Technologists receive.

Shown here is Vicky Page. She is one of the many students currently employed in the work study program. These students are employed in the laboratory, library, offices, school cafeteria, and many other areas.

The Electronics department at SJC is very well equipped. This enables the students to engage in practical applications of theories learned.

A variety of learning resources is available to students in the SJC library. Students are able to pursue many different activities through use of visual aid materials and/or printed matter.

Fundamentals of tennis is but one of many activities included in the physical education program at SJC. The physical education department also offers Golf, Archery, and Bowling in addition to team sports.

Police School and Adult Education are among community service programs being conducted on campus. Basic and advanced police schools are attended by law officers from all parts of Oklahoma.

Mackey Hall is home for many students at SJC. Dorm life is always interesting - as anyone who has lived with forty other people can tell you.

PRESIDENT

HARRY PATTERSON

Today our freedom brings us responsibilities as never before. We cannot afford to endanger the future by limited visions or sit back and let others fulfill our tasks and endeavors. At no time in our history has the world looked to our nation for leadership as at the present time.

Sayre Junior College is most happy to accept this challenge by assuming the responsibility in training our youth for tomorrow. The administration and faculty at Sayre Junior College pledge themselves to the task of expanding the curriculum to meet the needs of a changing world.

We hope that every student leaving Sayre Junior College will continue his education and will engage in work that is self-satisfying as well as profitable.

We must stay alert, keep informed, and as never before we must realize that eternal vigilance is the price of freedom.

GARLAND HINKLE
