Sayre Junior College

1976 ★

This page intentionally left blank.

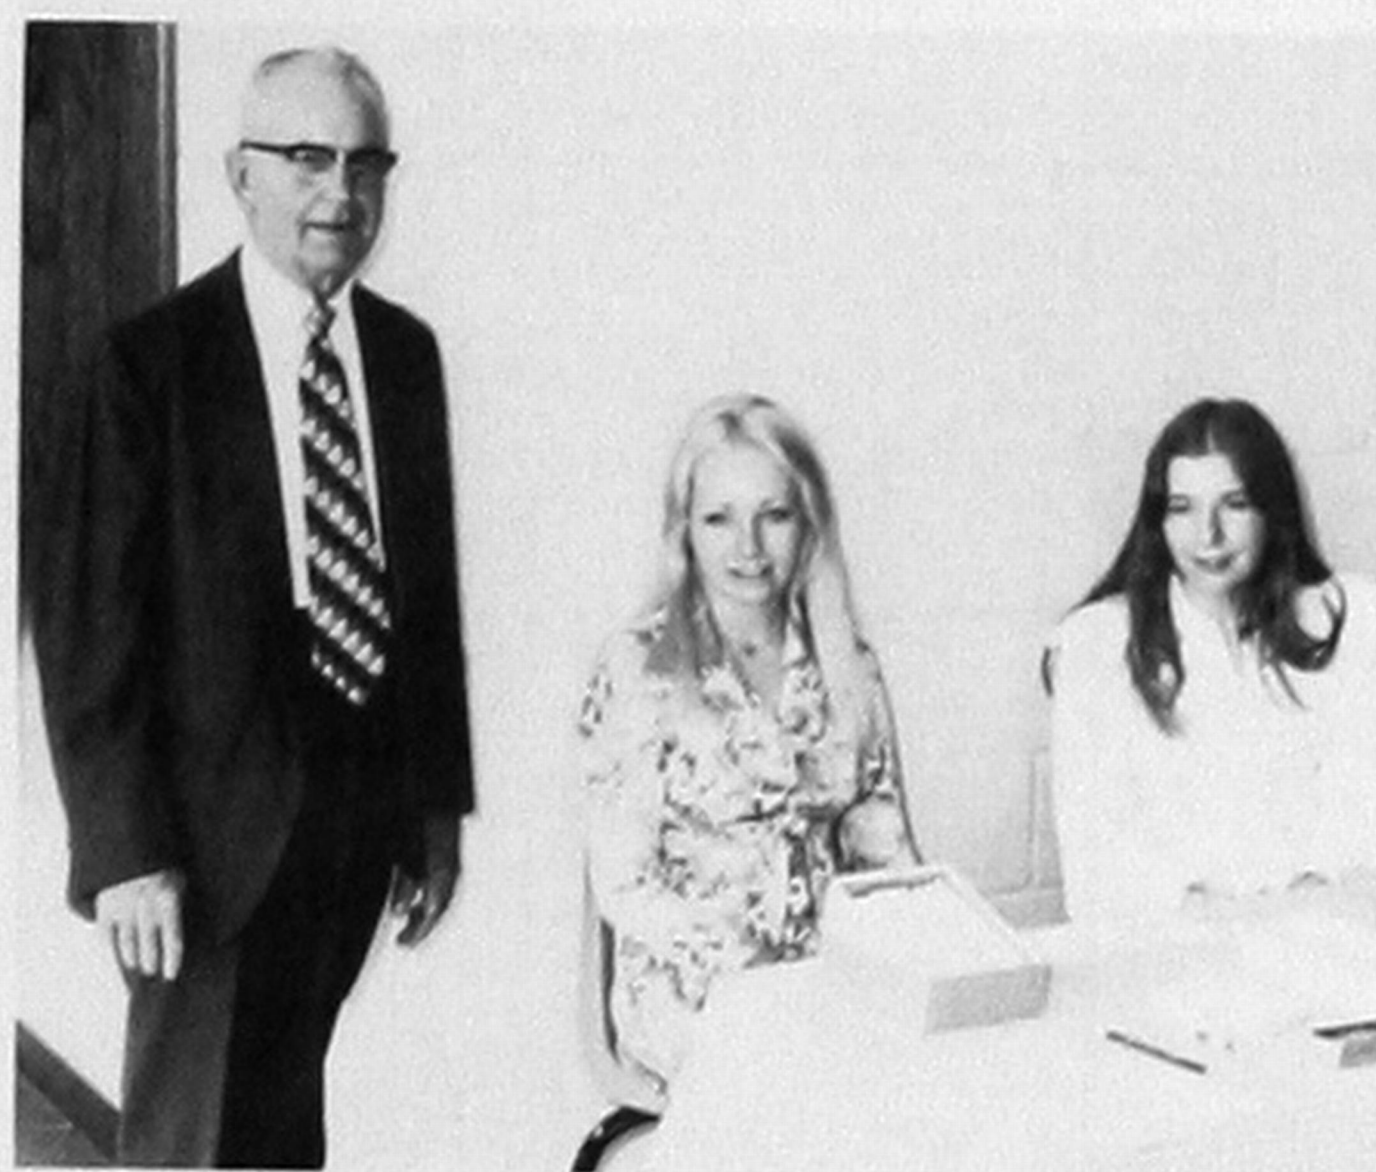

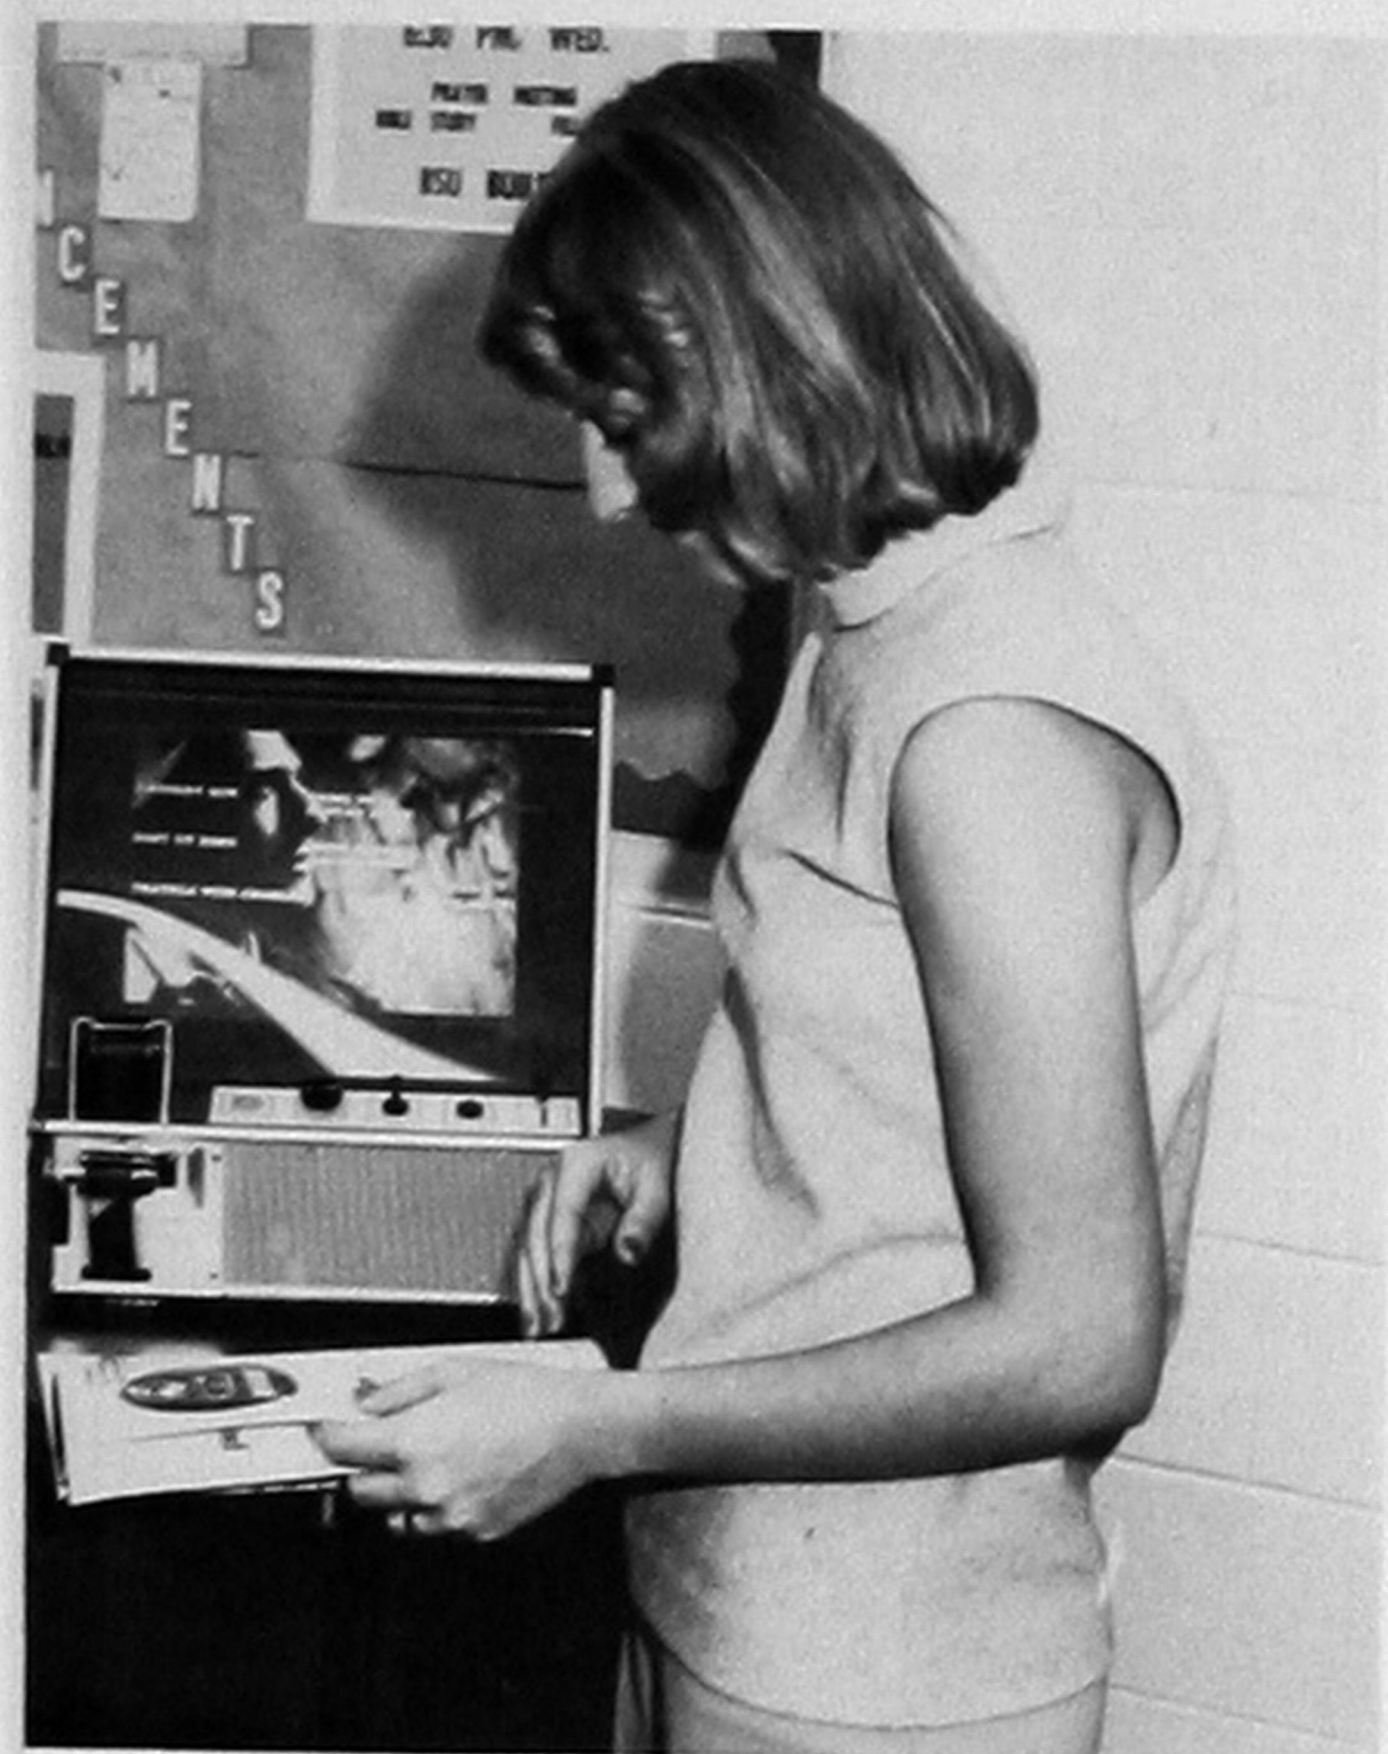

*Sayre
Junior
College
Sayre,
Oklahoma
1976*

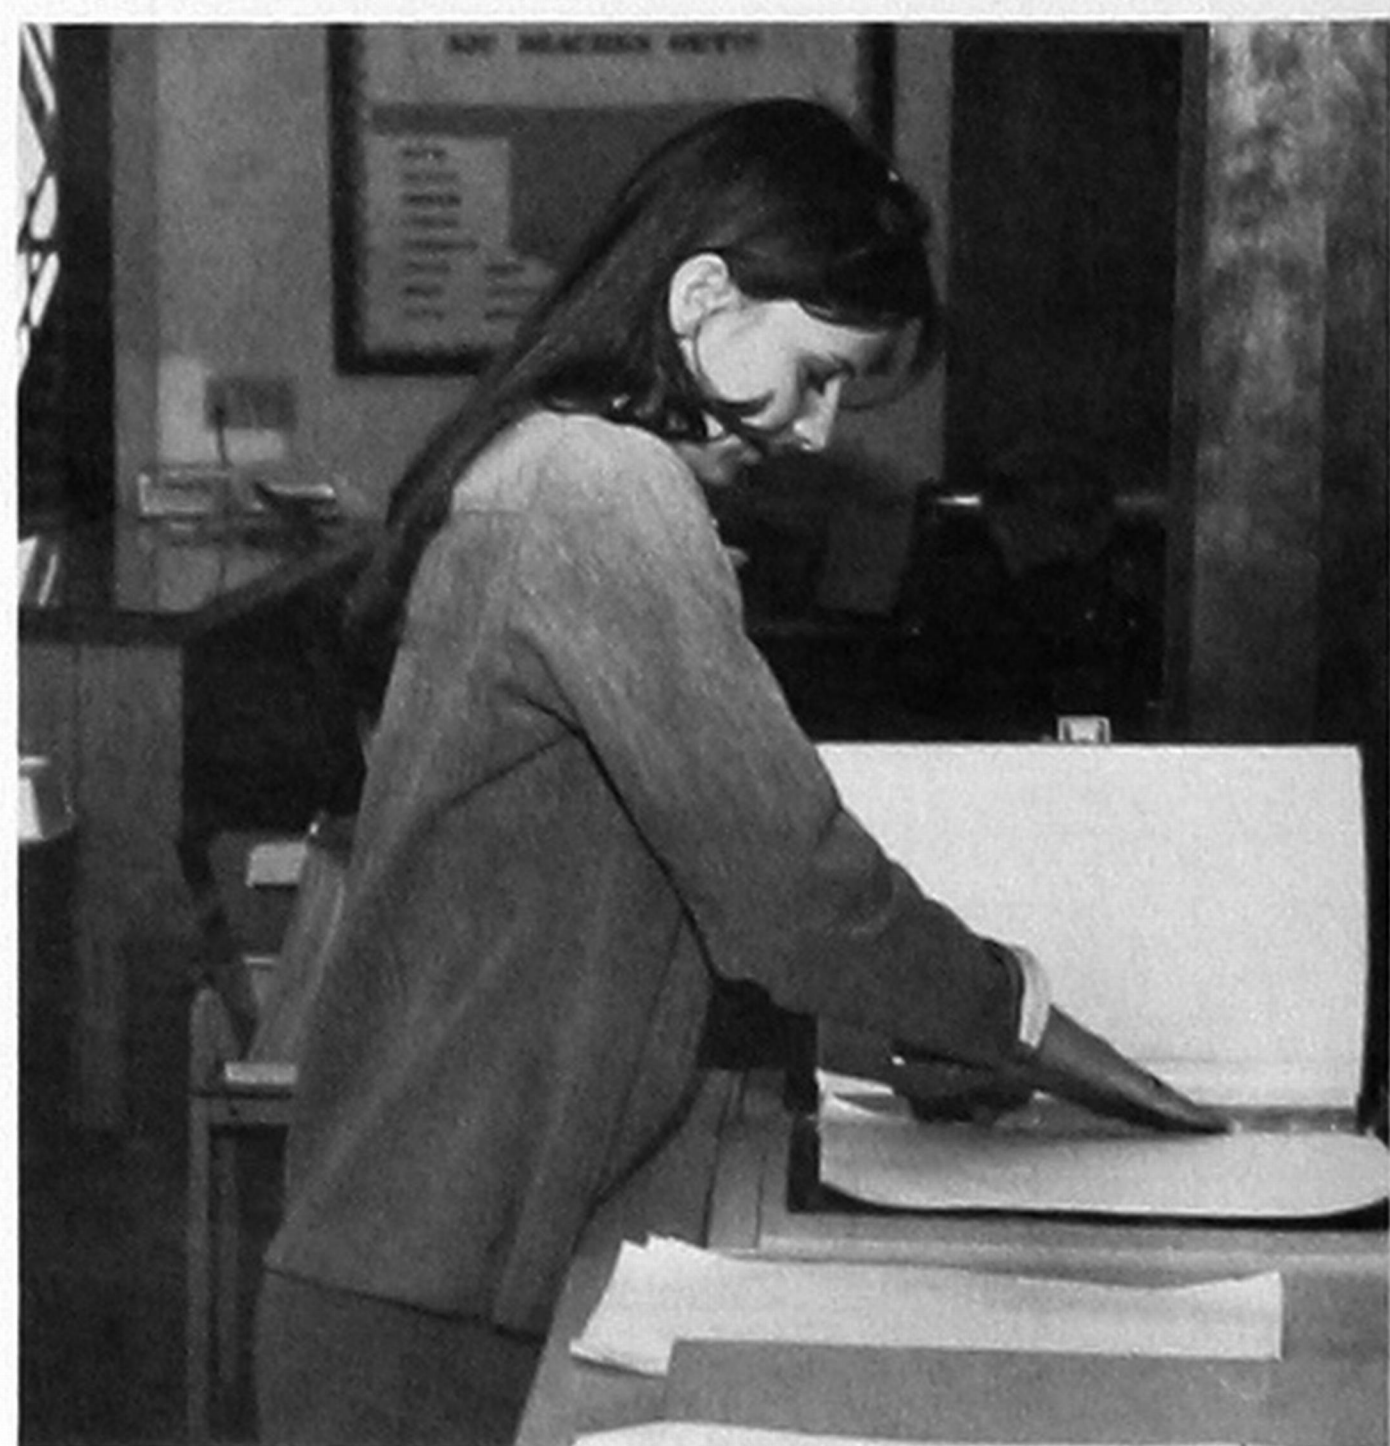

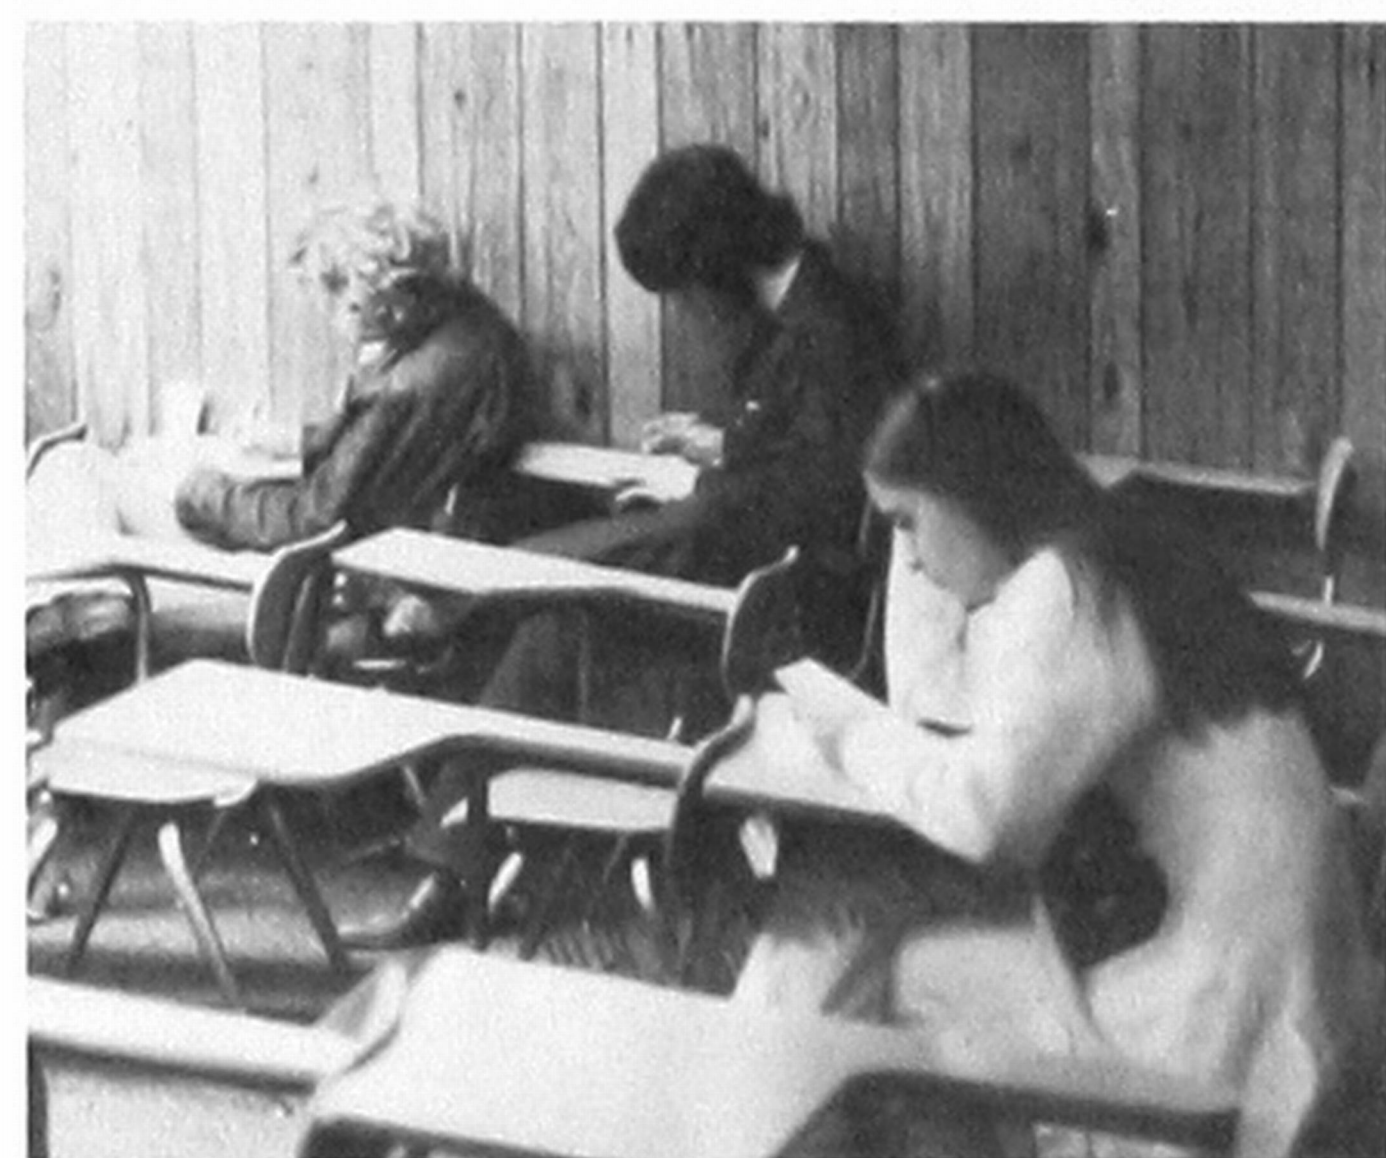

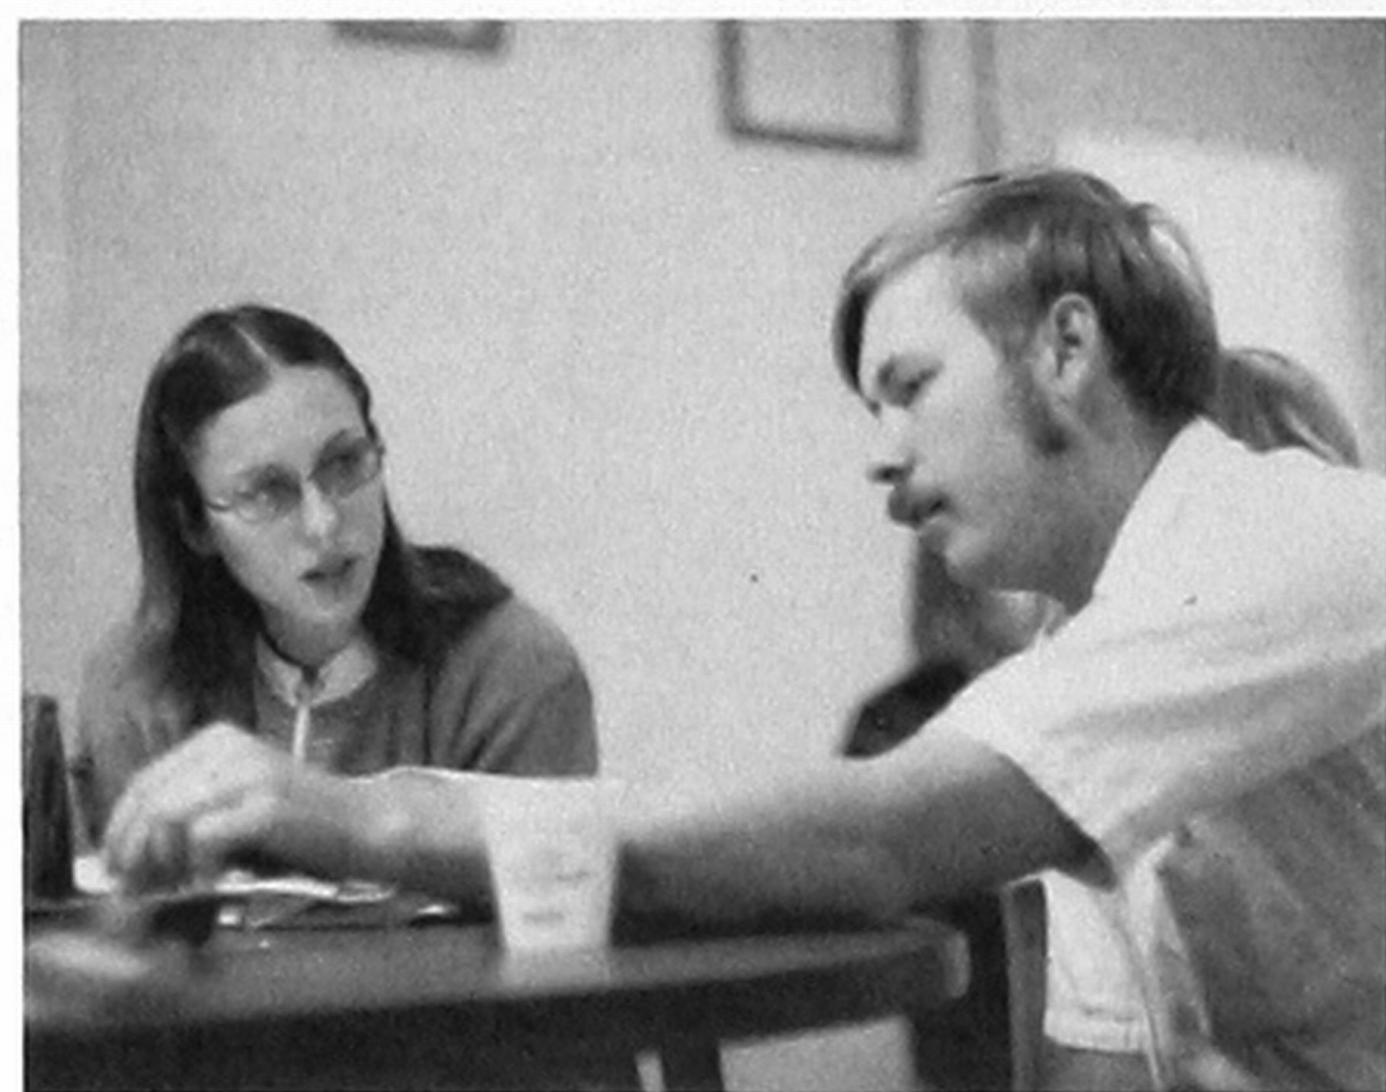

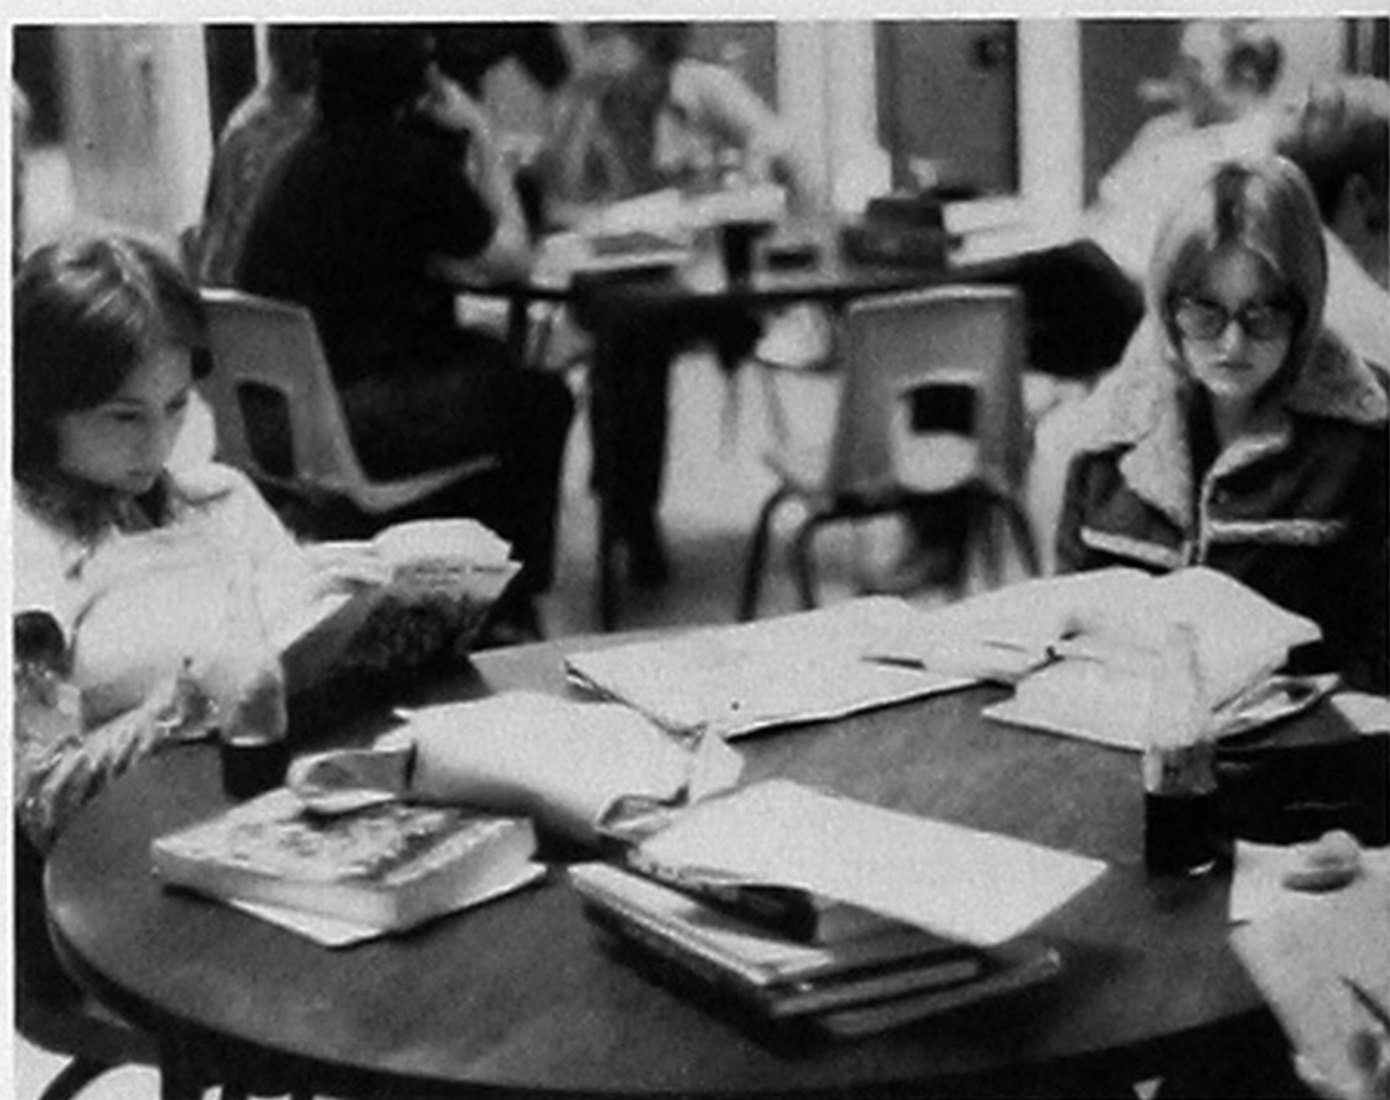

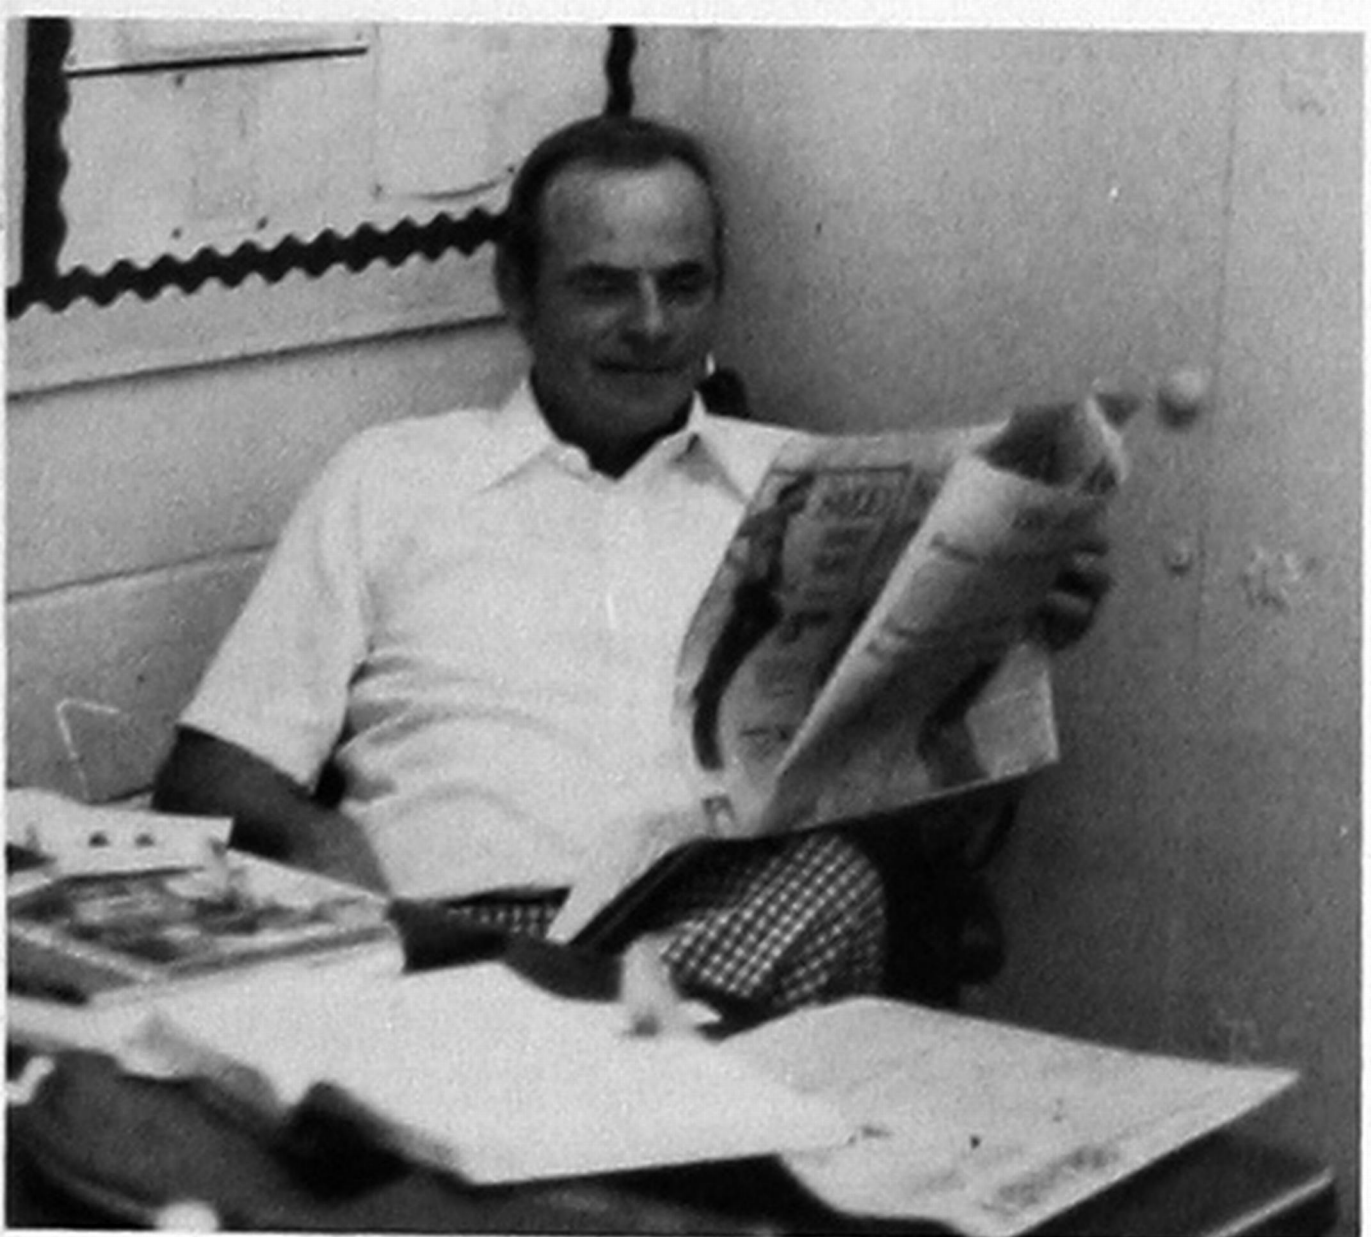

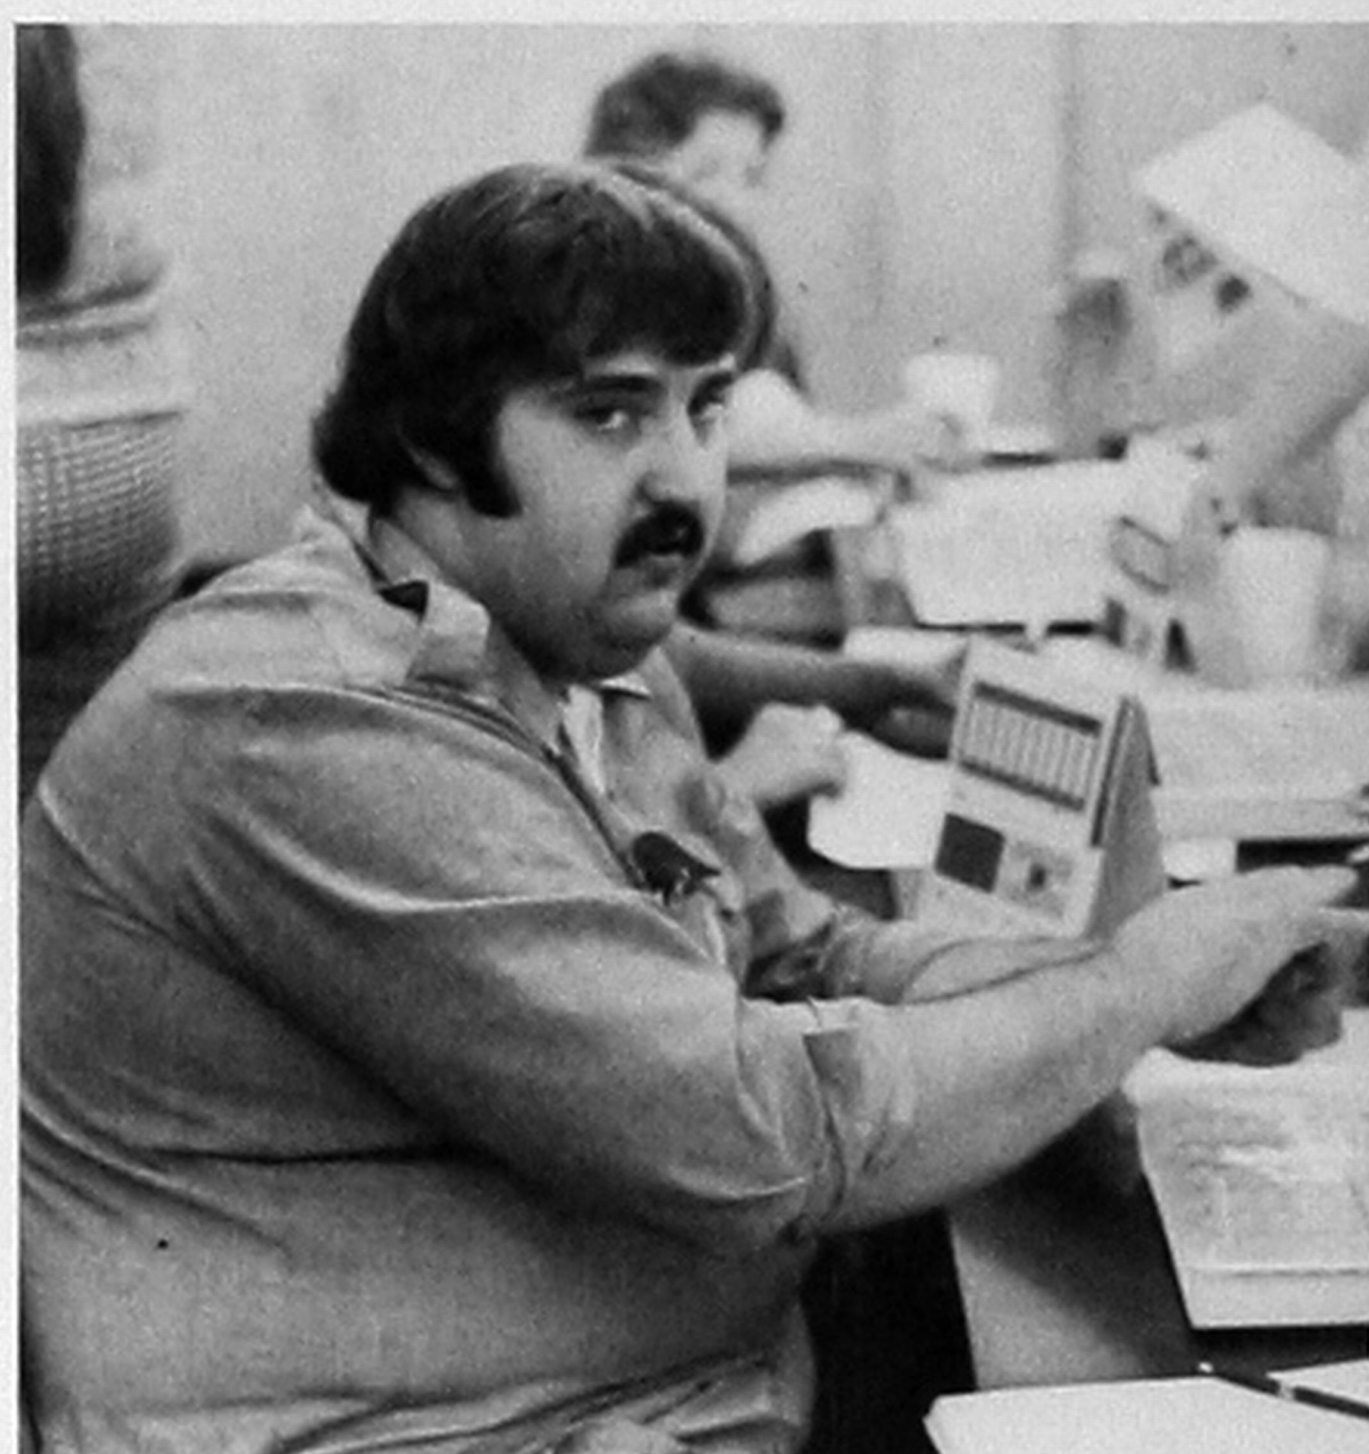

In October open house was held to allow the public a view of our new library and life science laboratory. Displays from all areas were available for people to view. This allowed people to become better acquainted with the programs and services we offer.

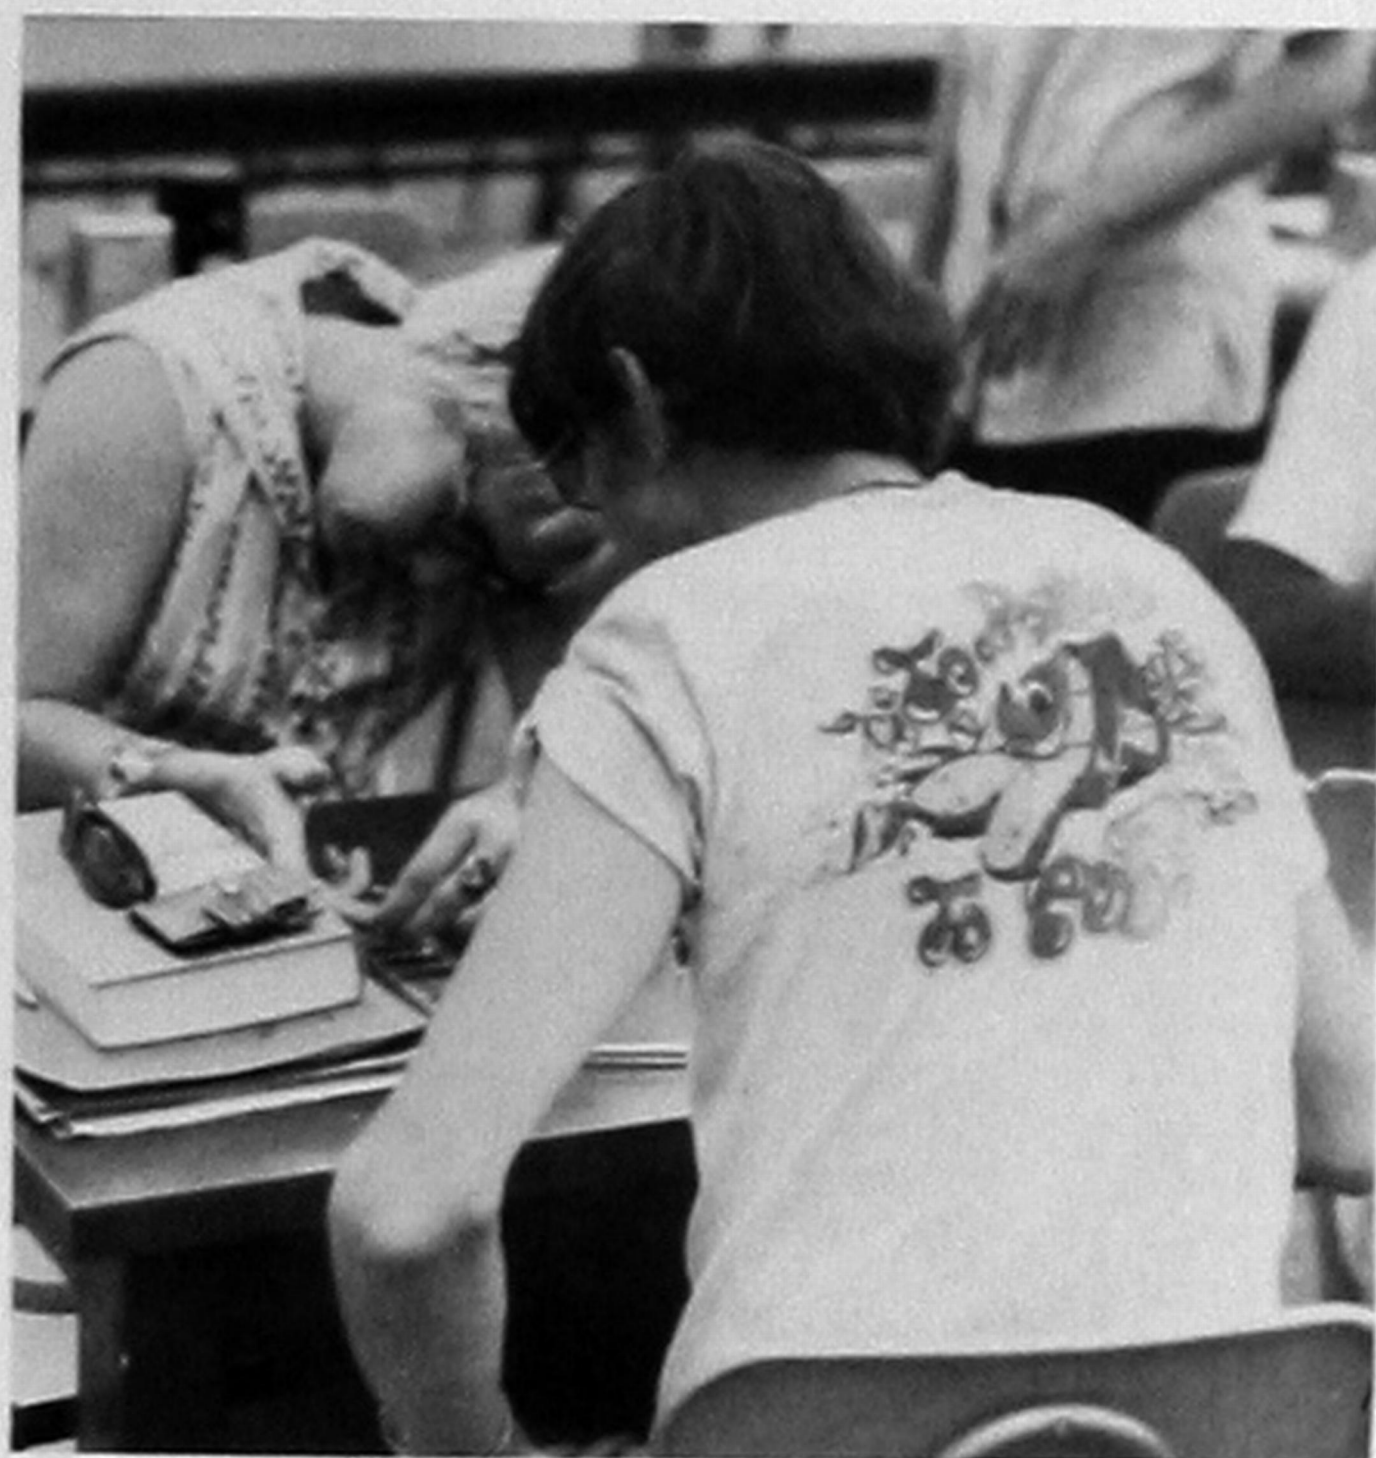

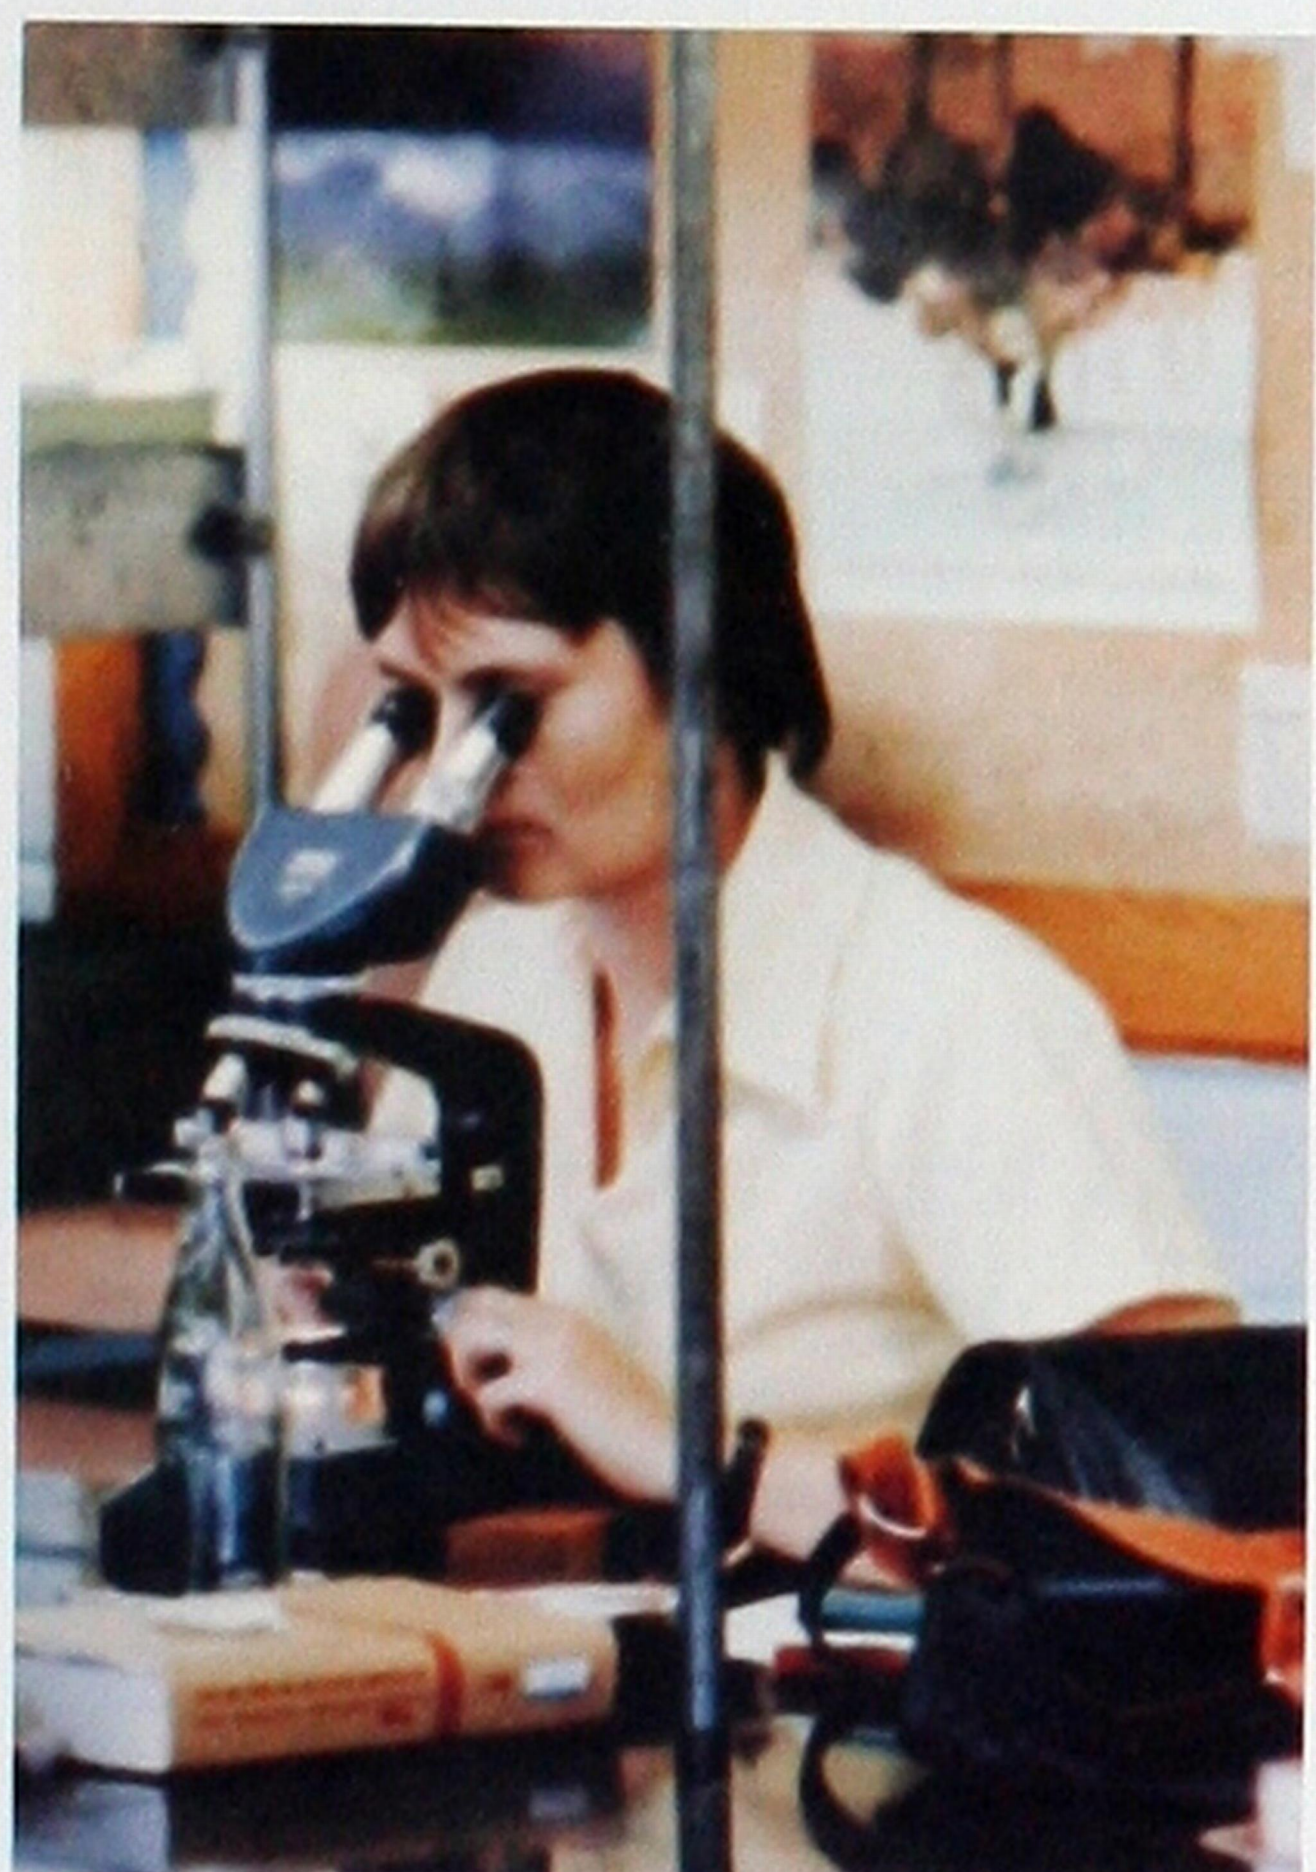

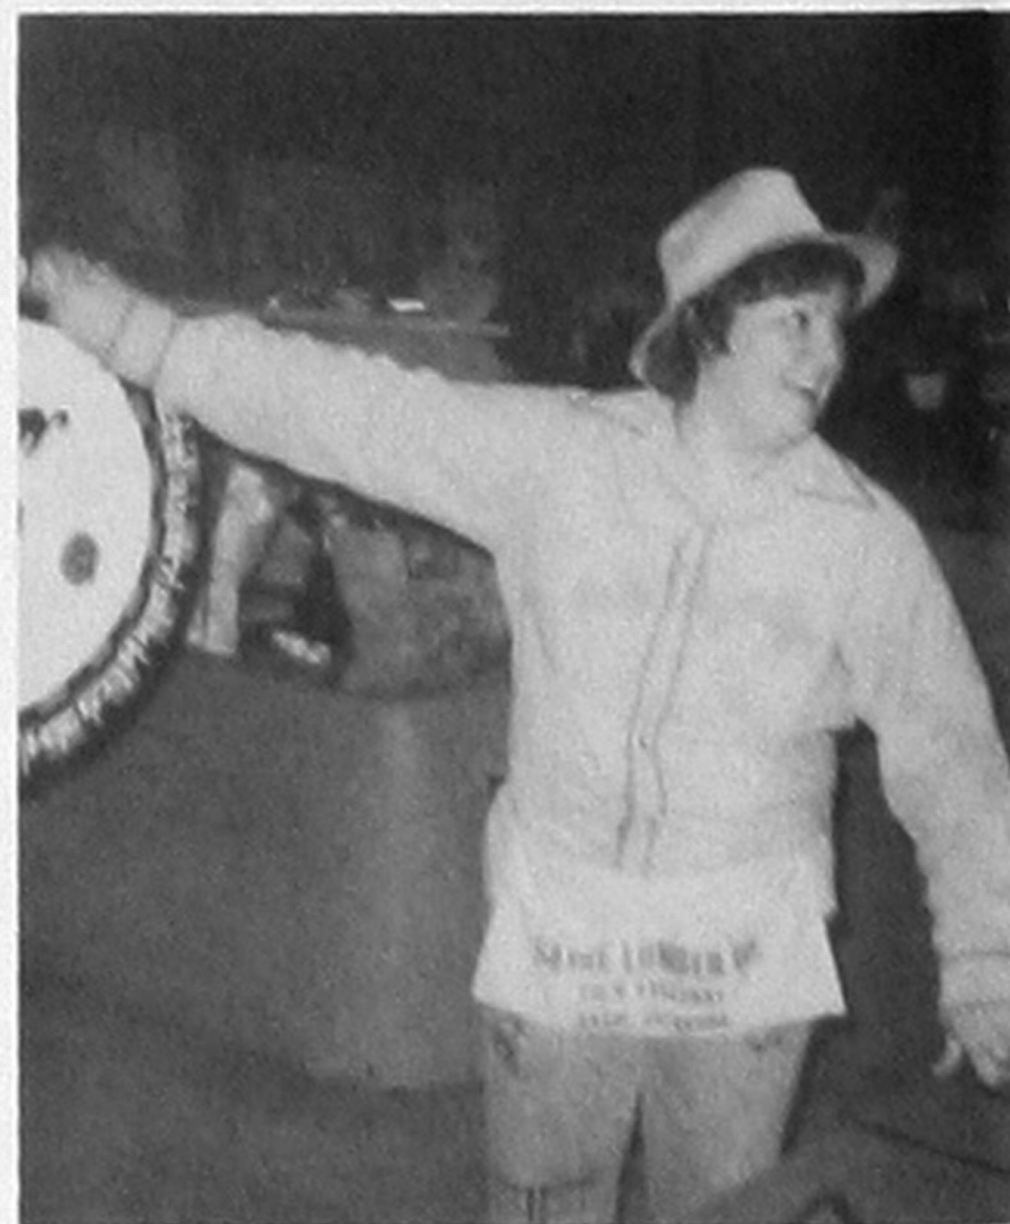

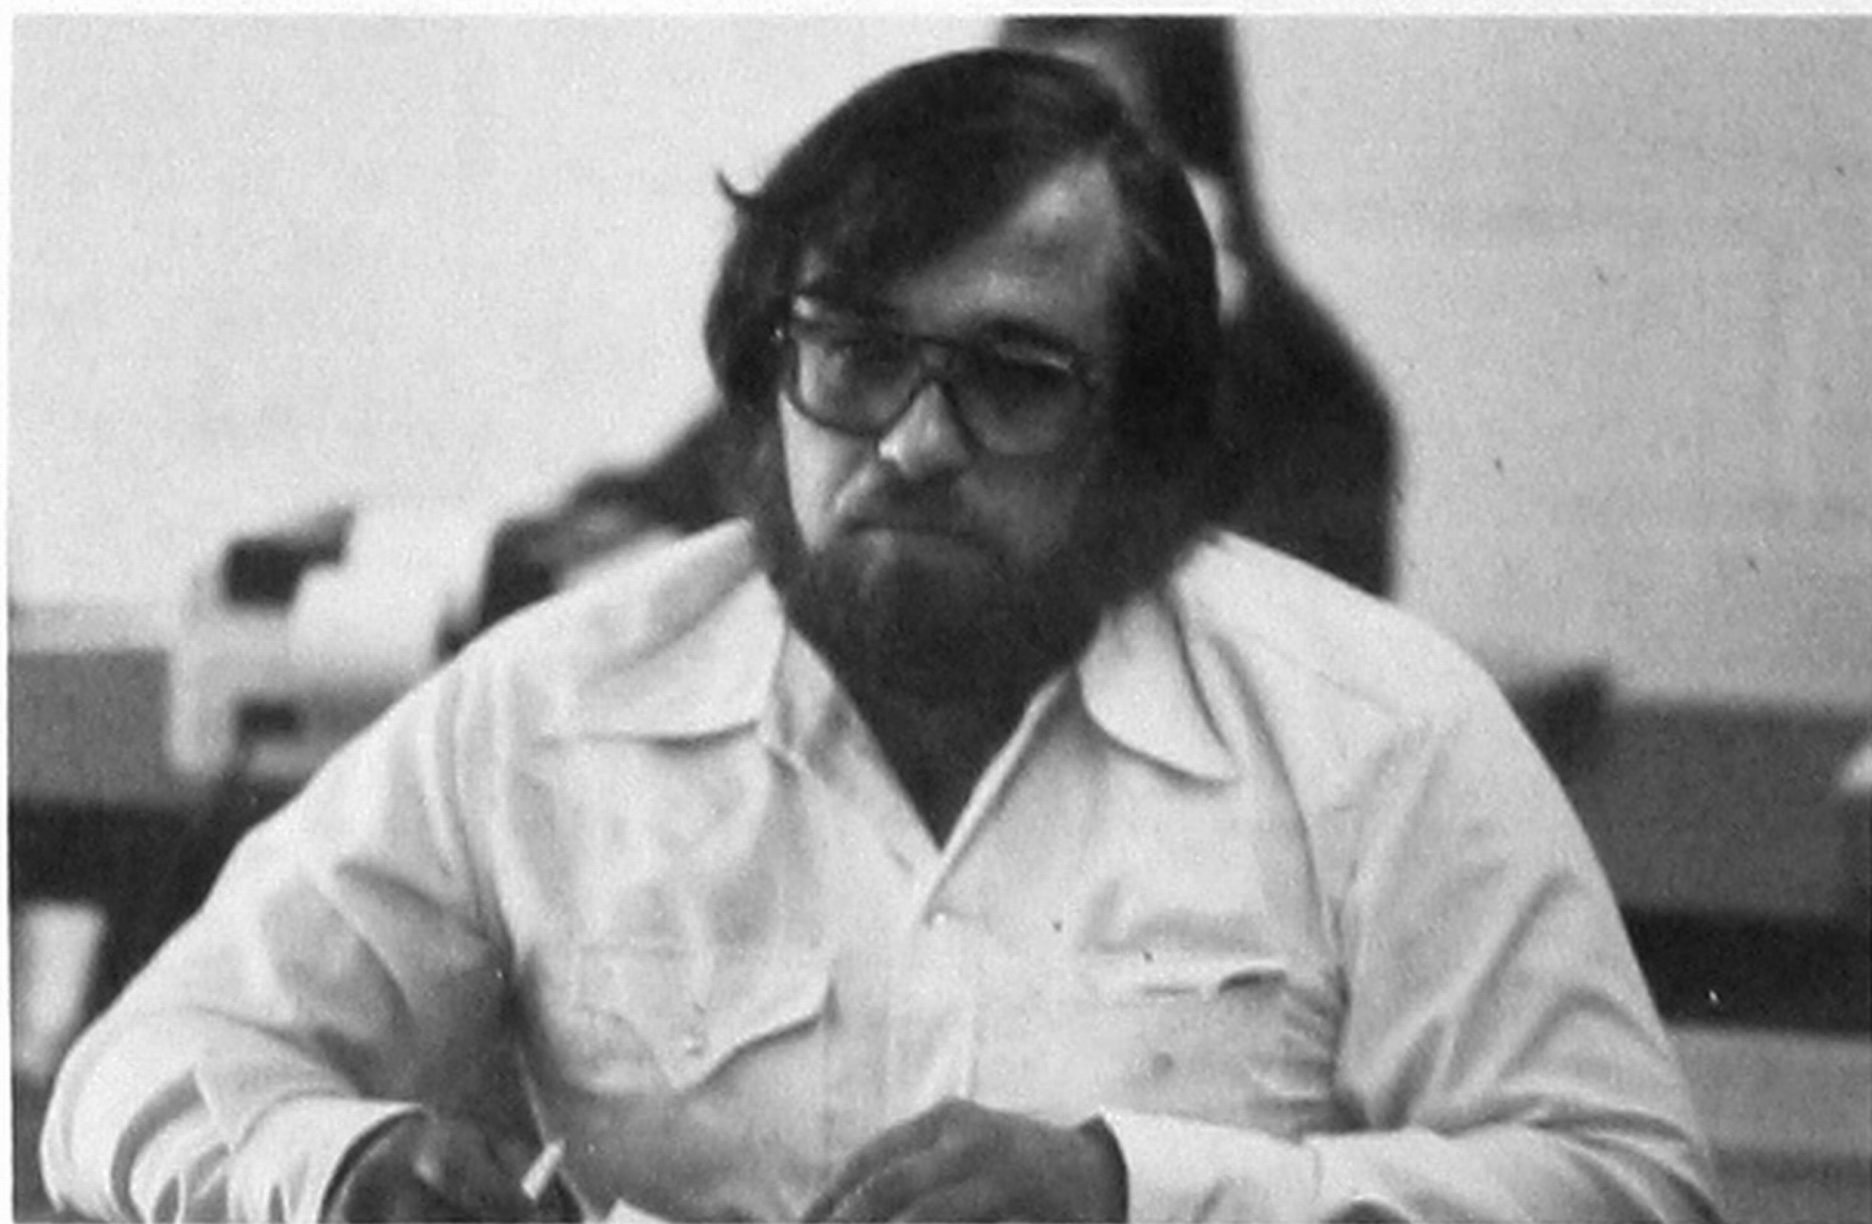

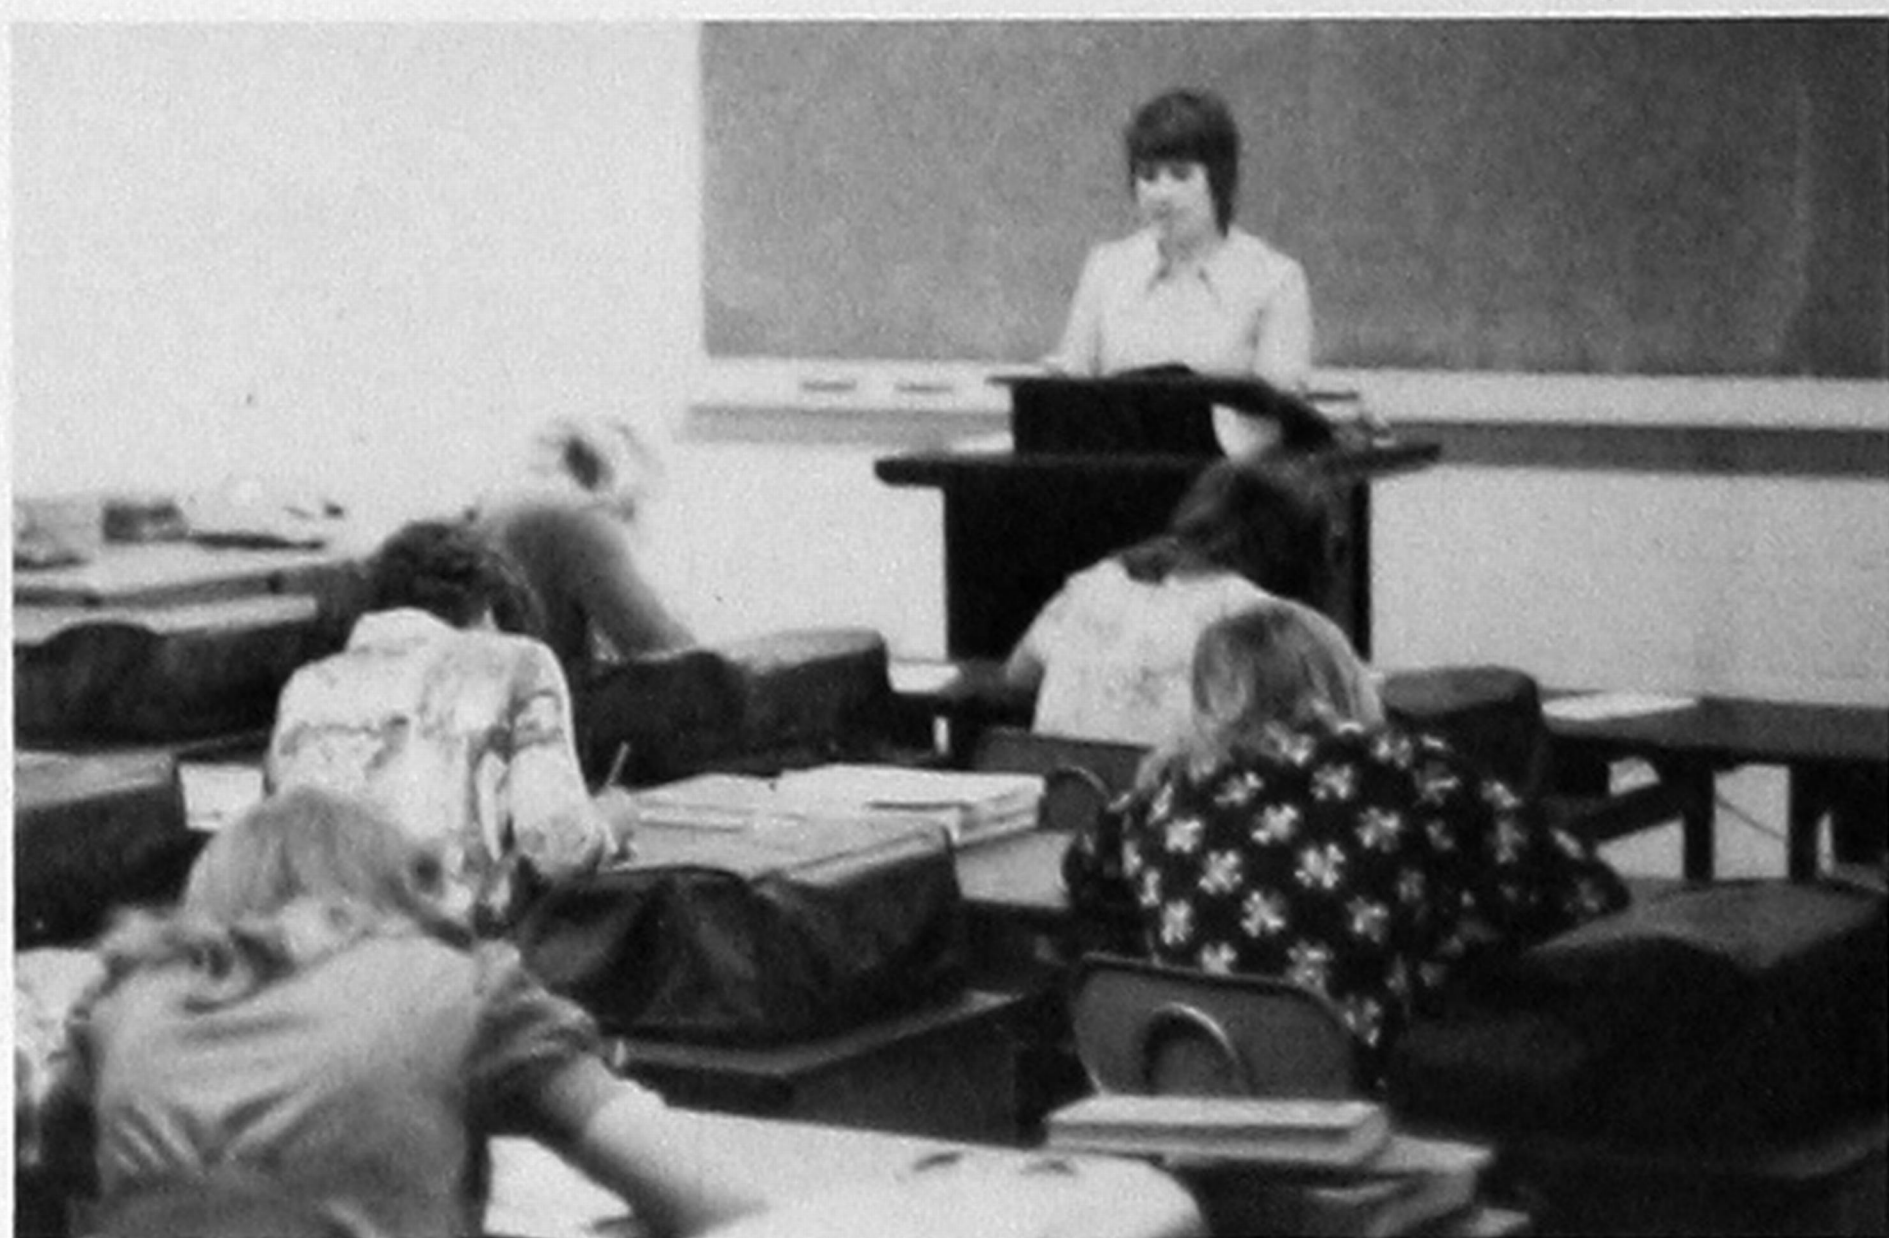

Medical Technology at Sayre Junior College is a very interesting and challenging field. Work involved in training for a Medical Laboratory Technician consists not only of the medical technology courses, but includes courses of microbiology, zoology, anatomy and physiology, chemistry, and medical terminology. Also required is one year's internship in an approved laboratory. A number of other health related fields are also offered.

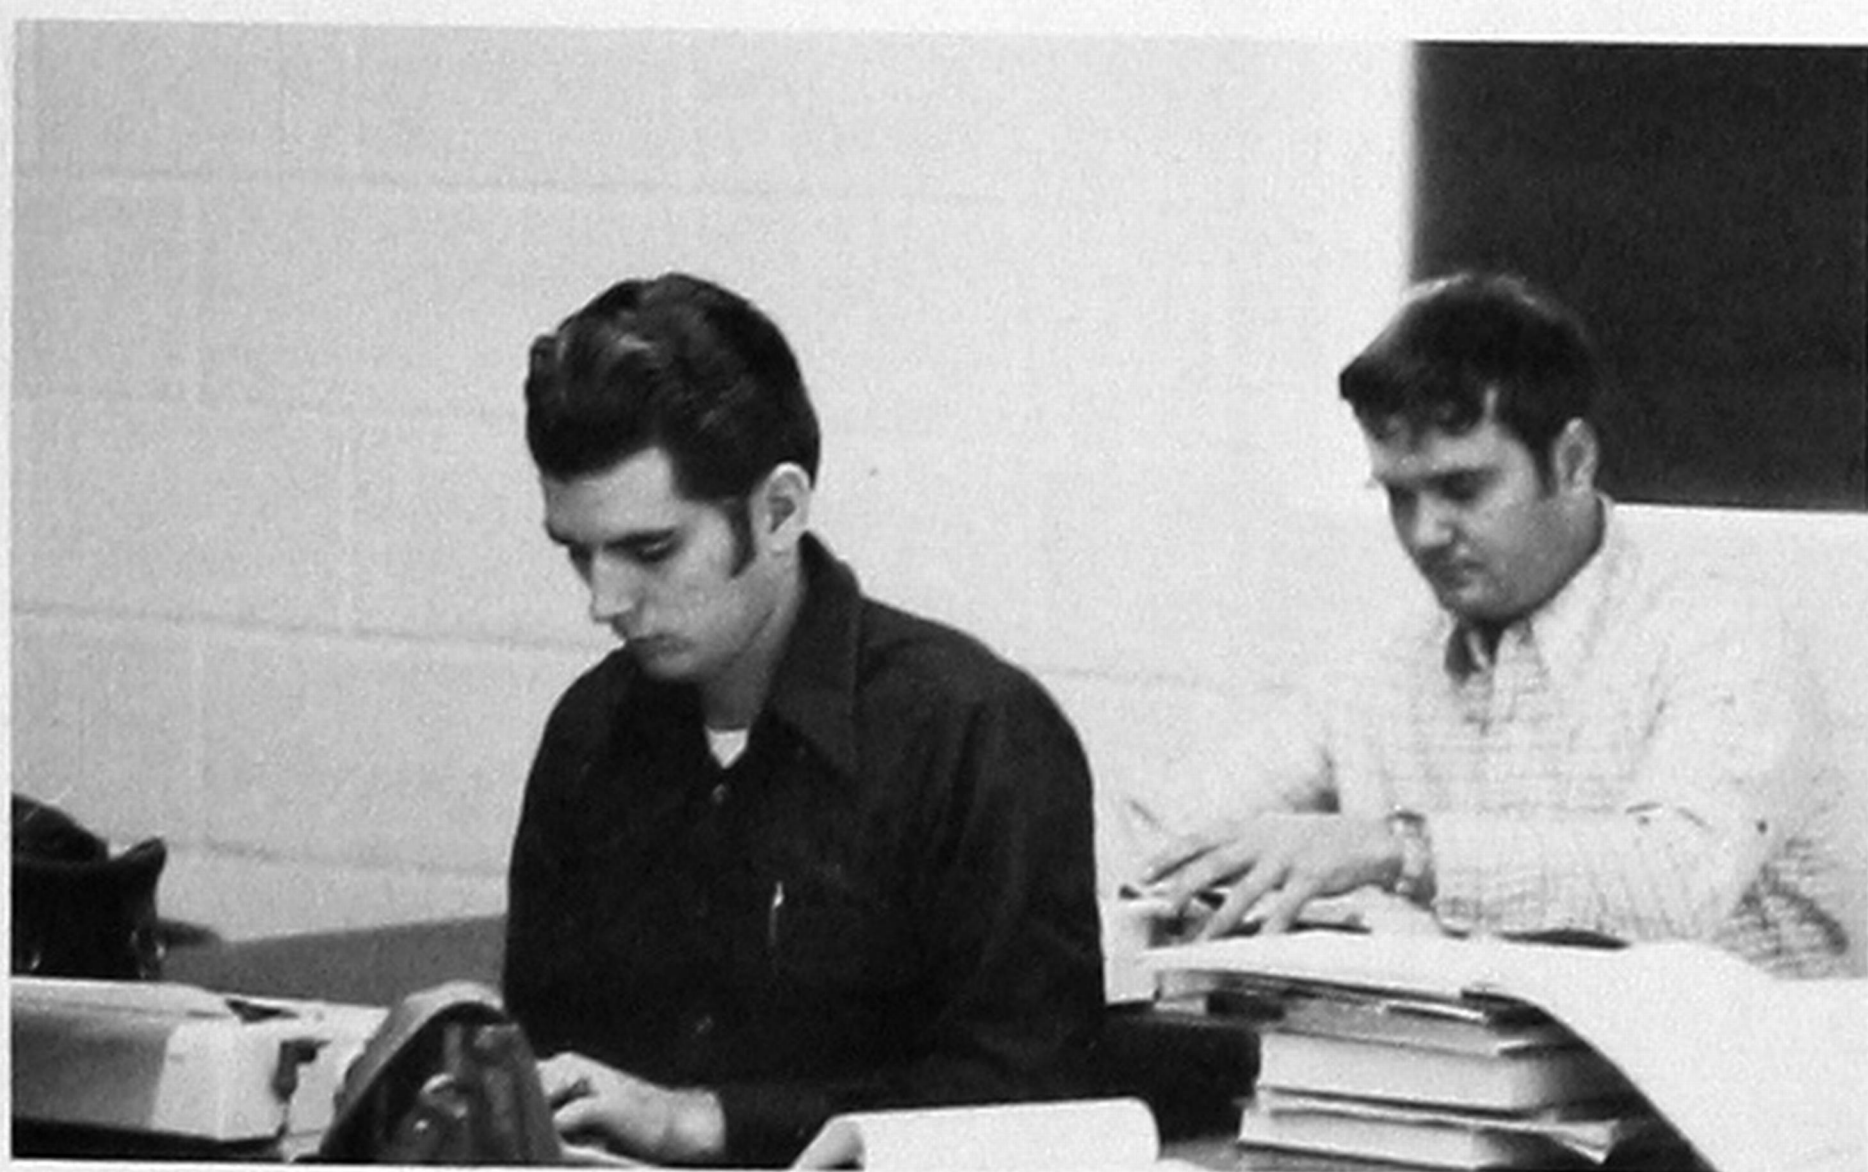

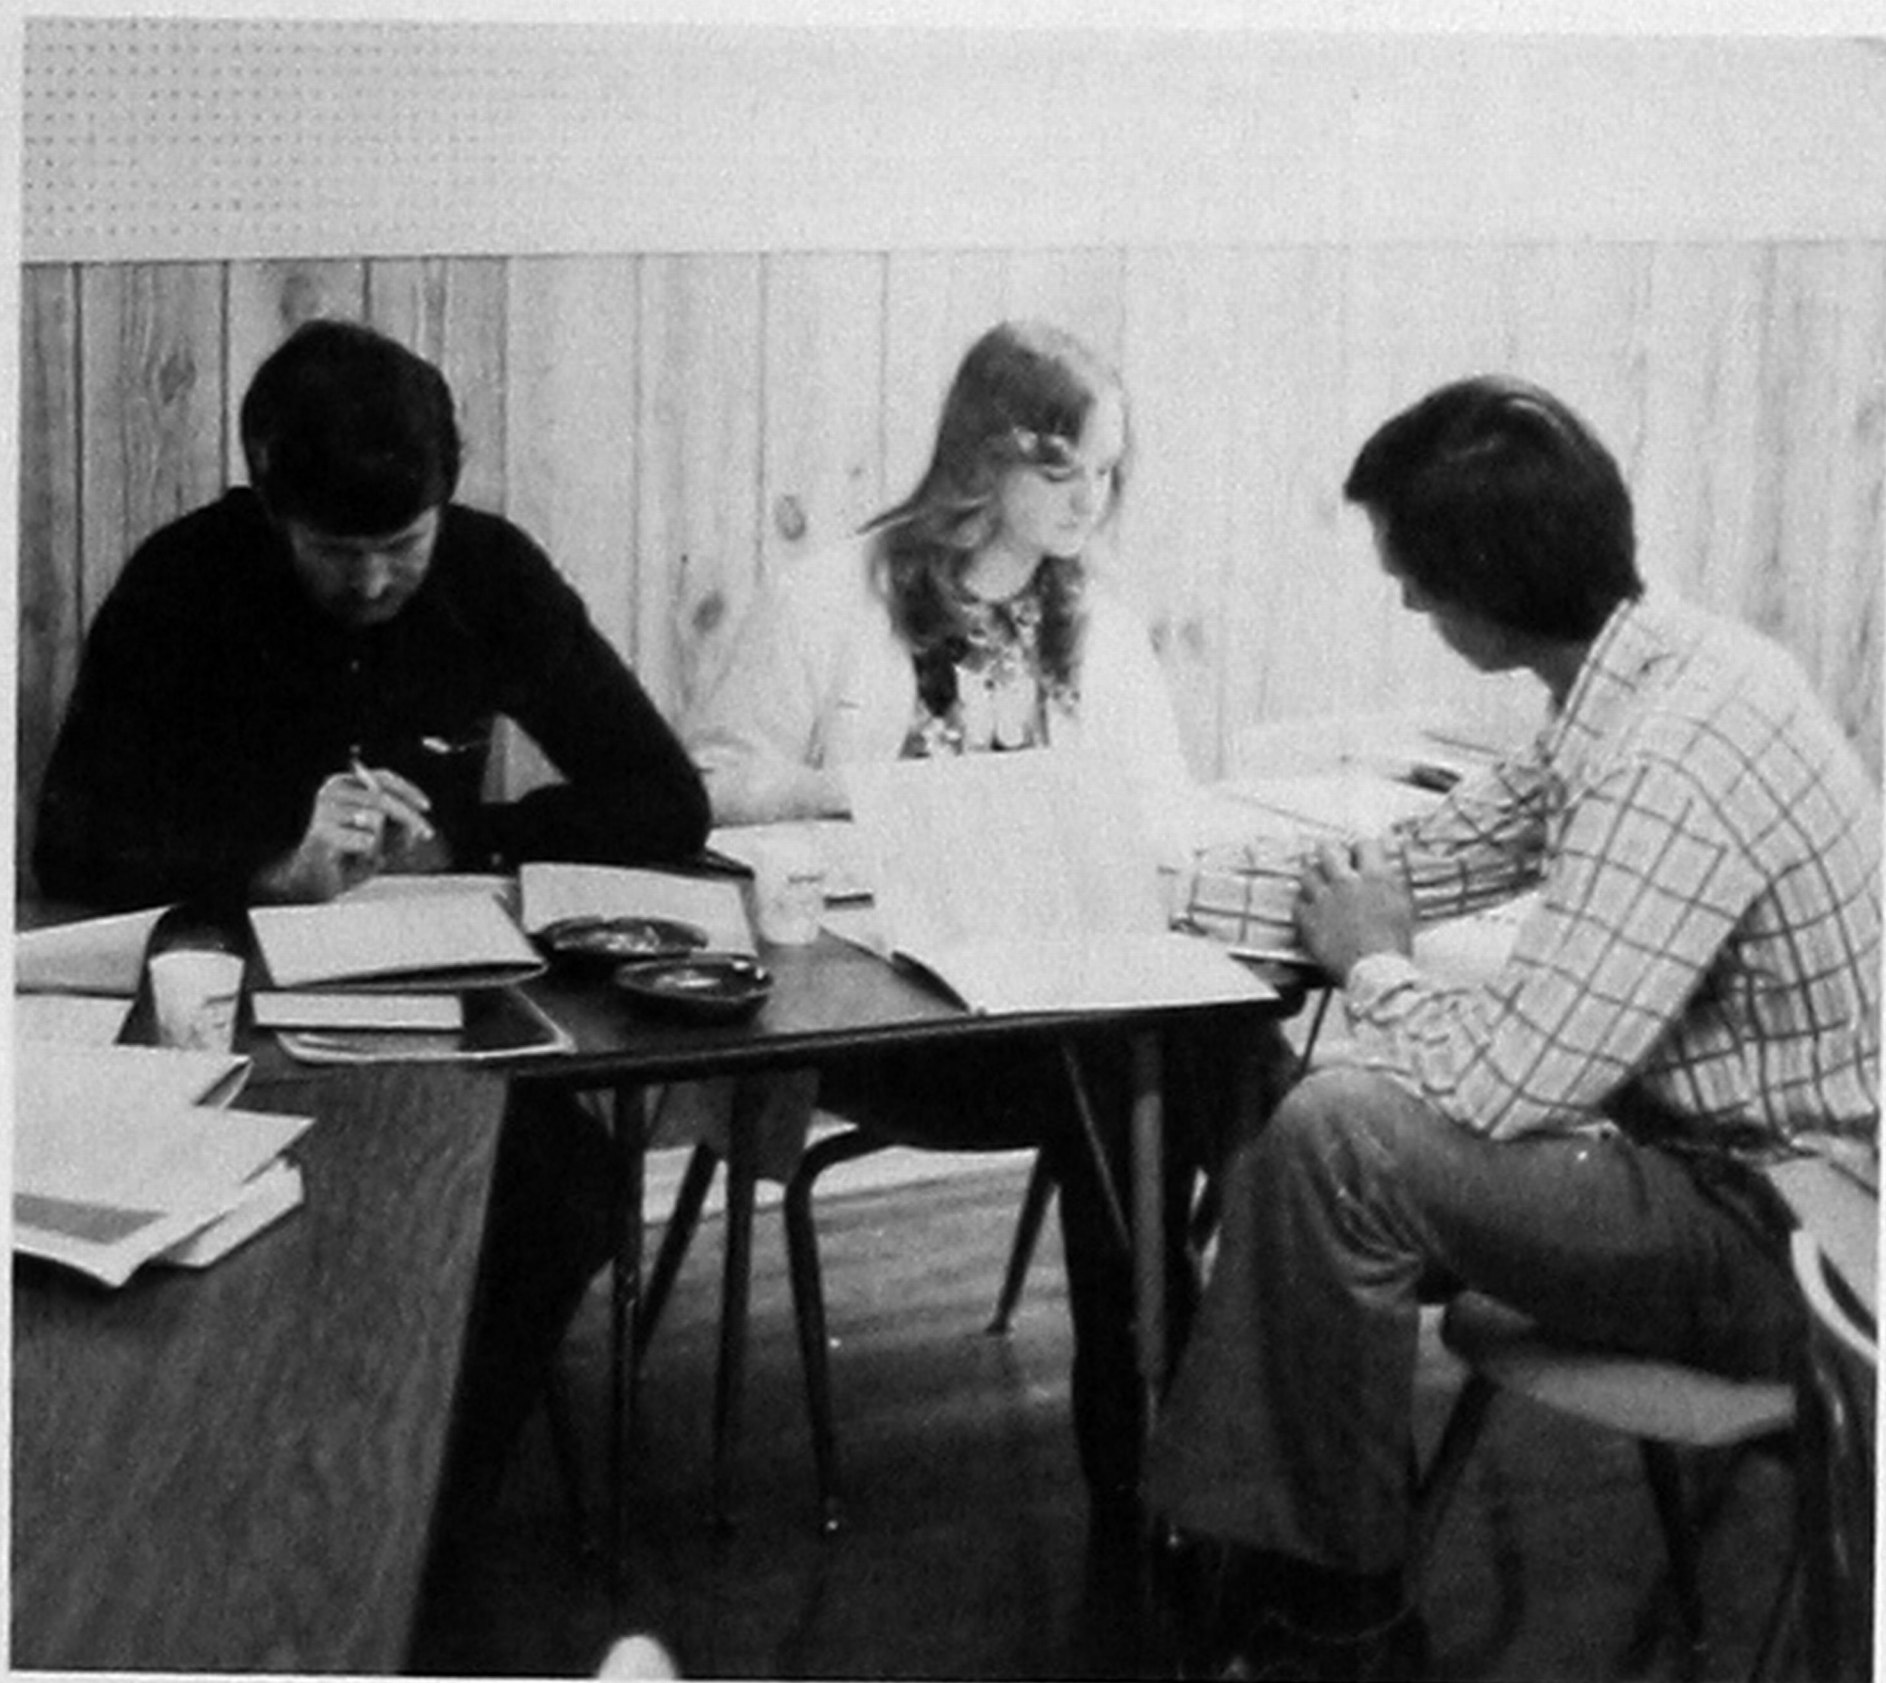

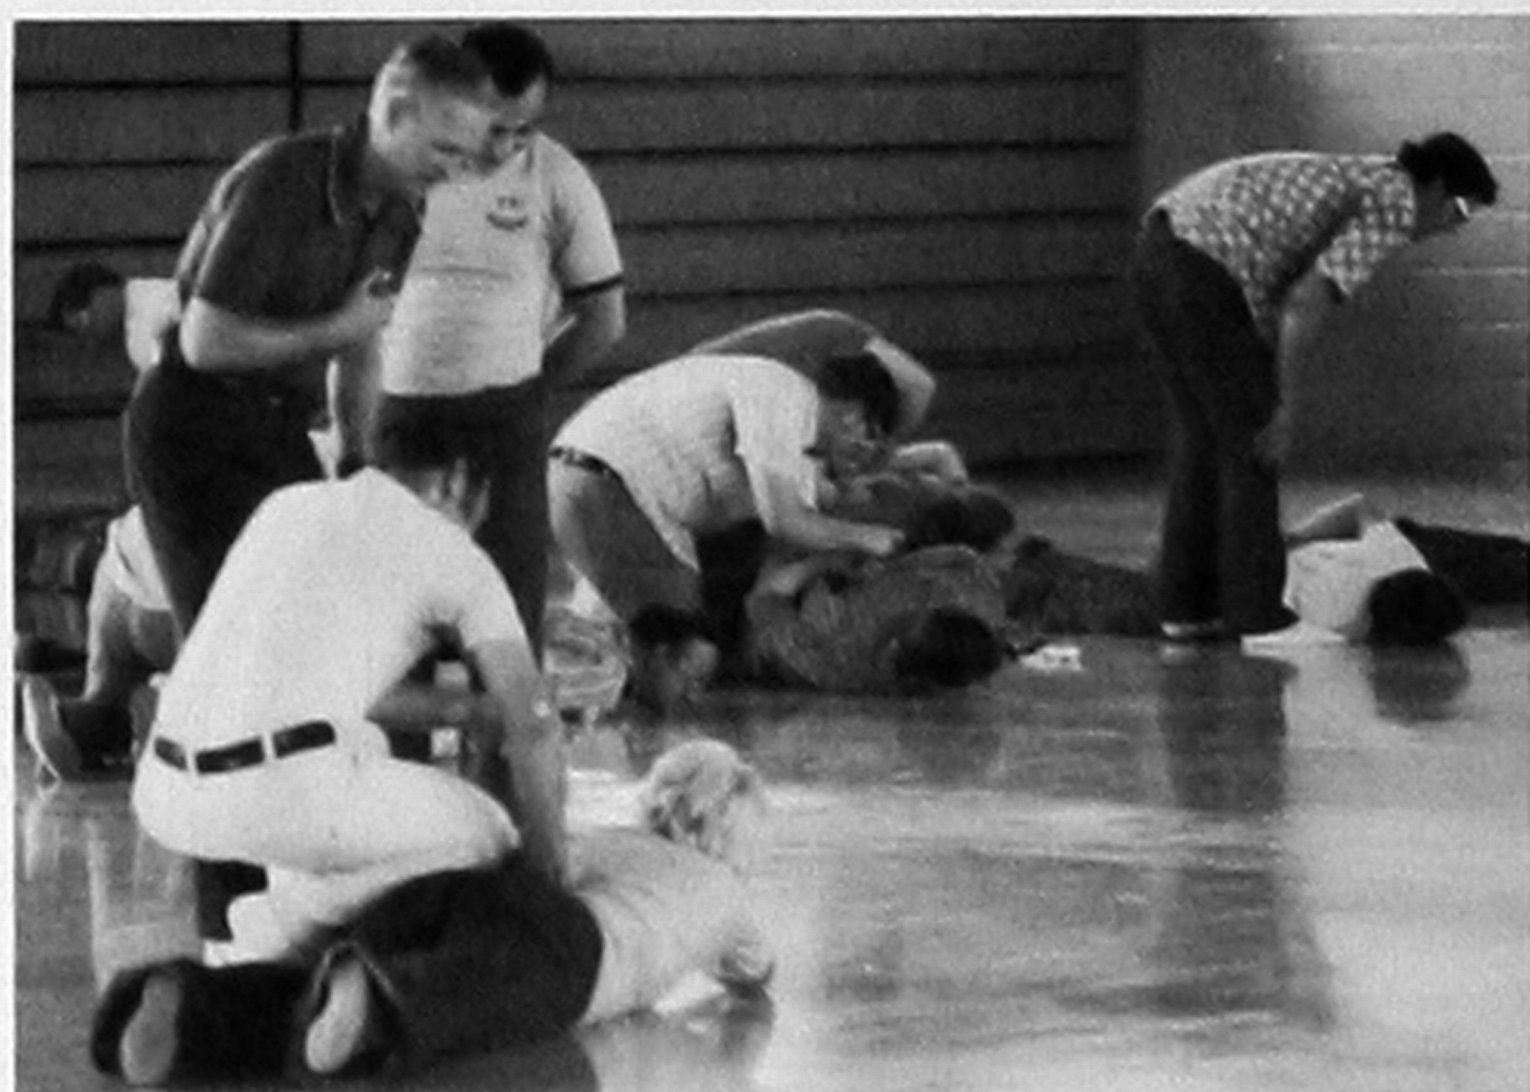

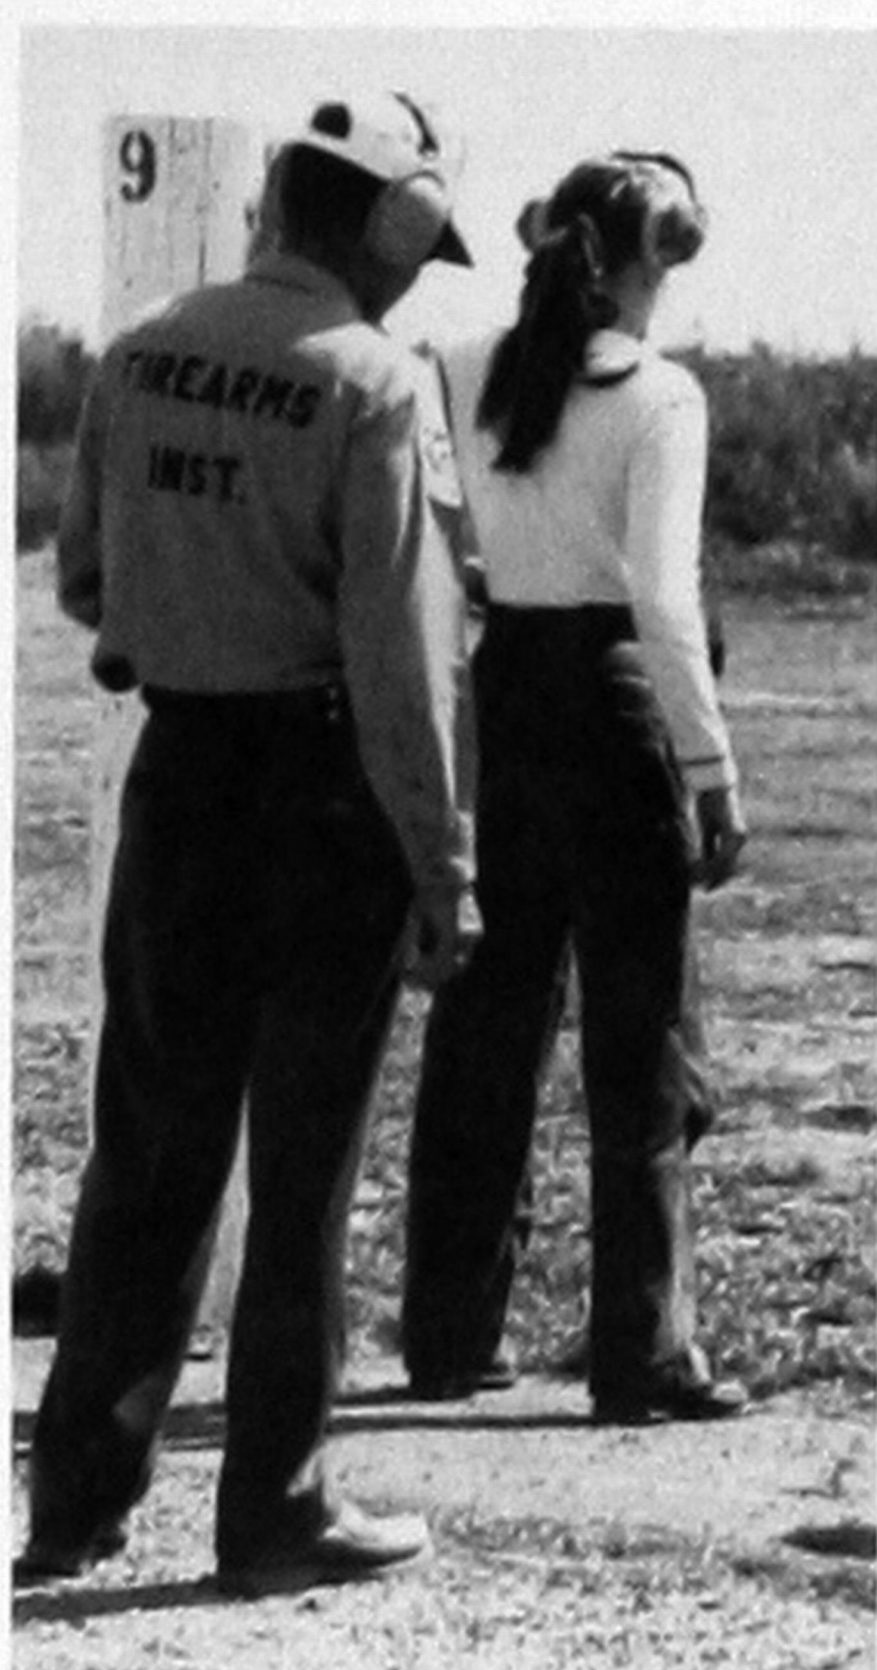

The business department at Sayre Junior College involves approximately one-third of the student body in preparation for careers in secretarial science, small business management, accounting, and business education. Secretarial students are ready for employment in law offices, doctors' clinics, insurance offices, or governmental agencies within one or two years. Middle management students are prepared to manage a small business of their own, take the Federal Service Entrance Examination, or enter management training programs of major companies after completing the two-year program. Other students are ready to transfer to other colleges and continue their work toward a baccalaureate degree program. By planning today for tomorrow's needs, business students are insuring a future for themselves in an ever-changing opportunity-laden world.

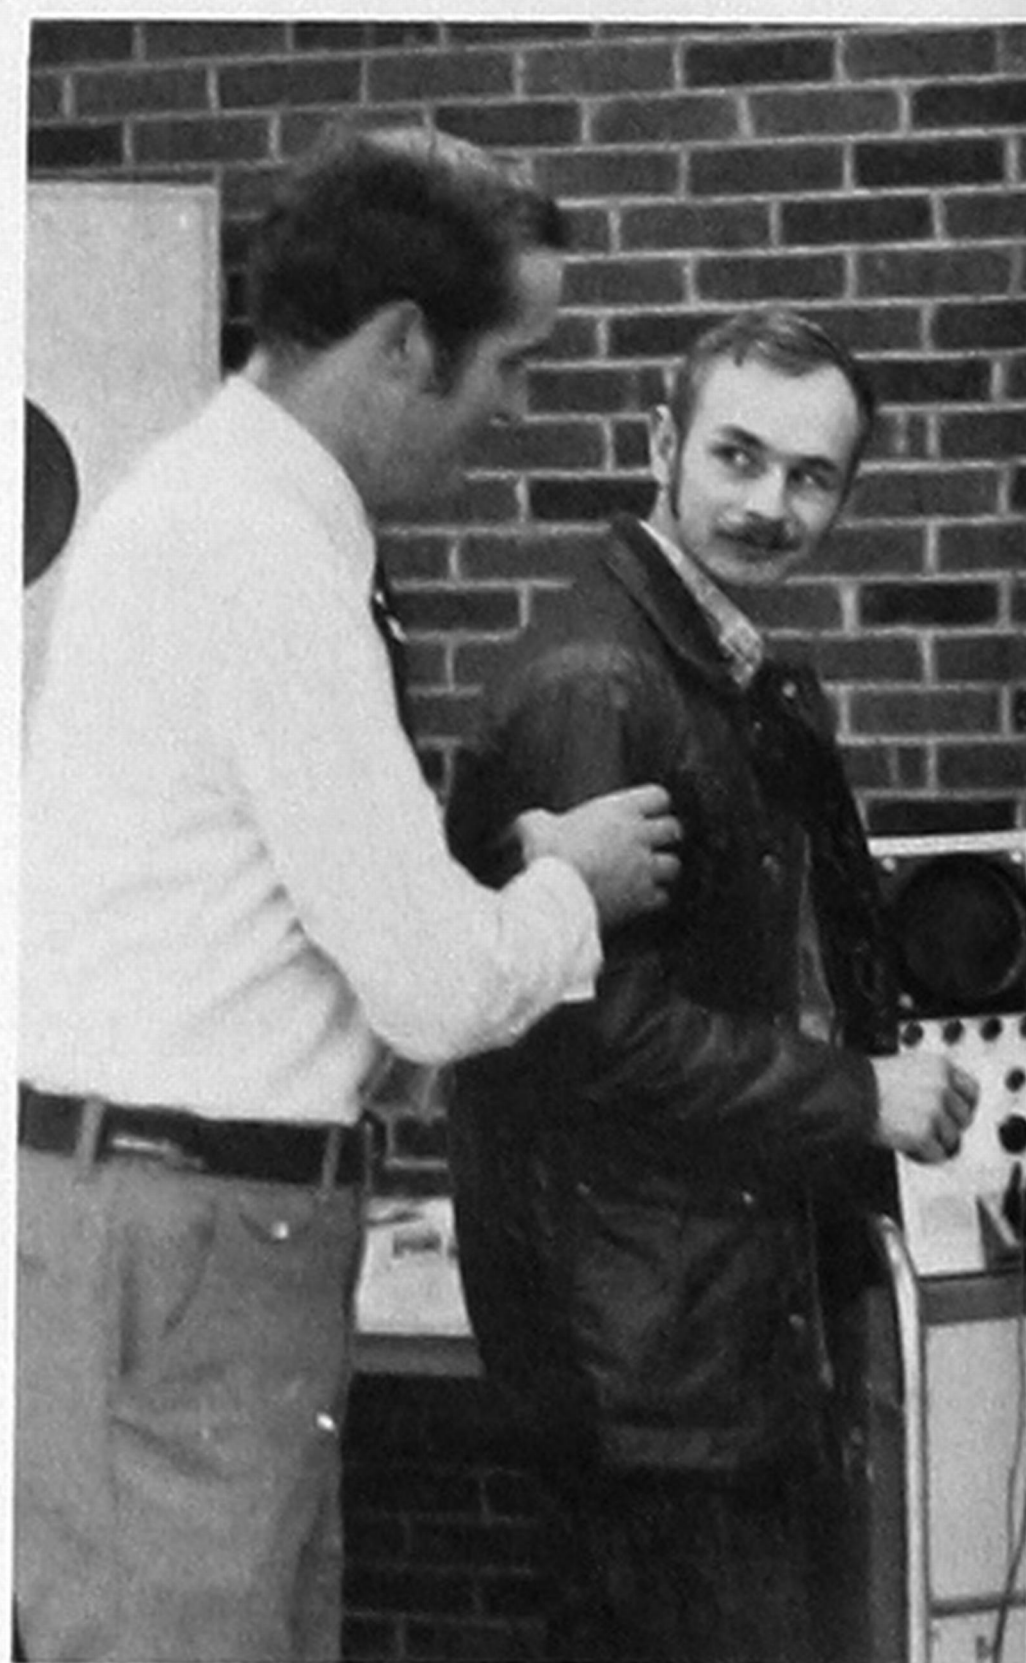

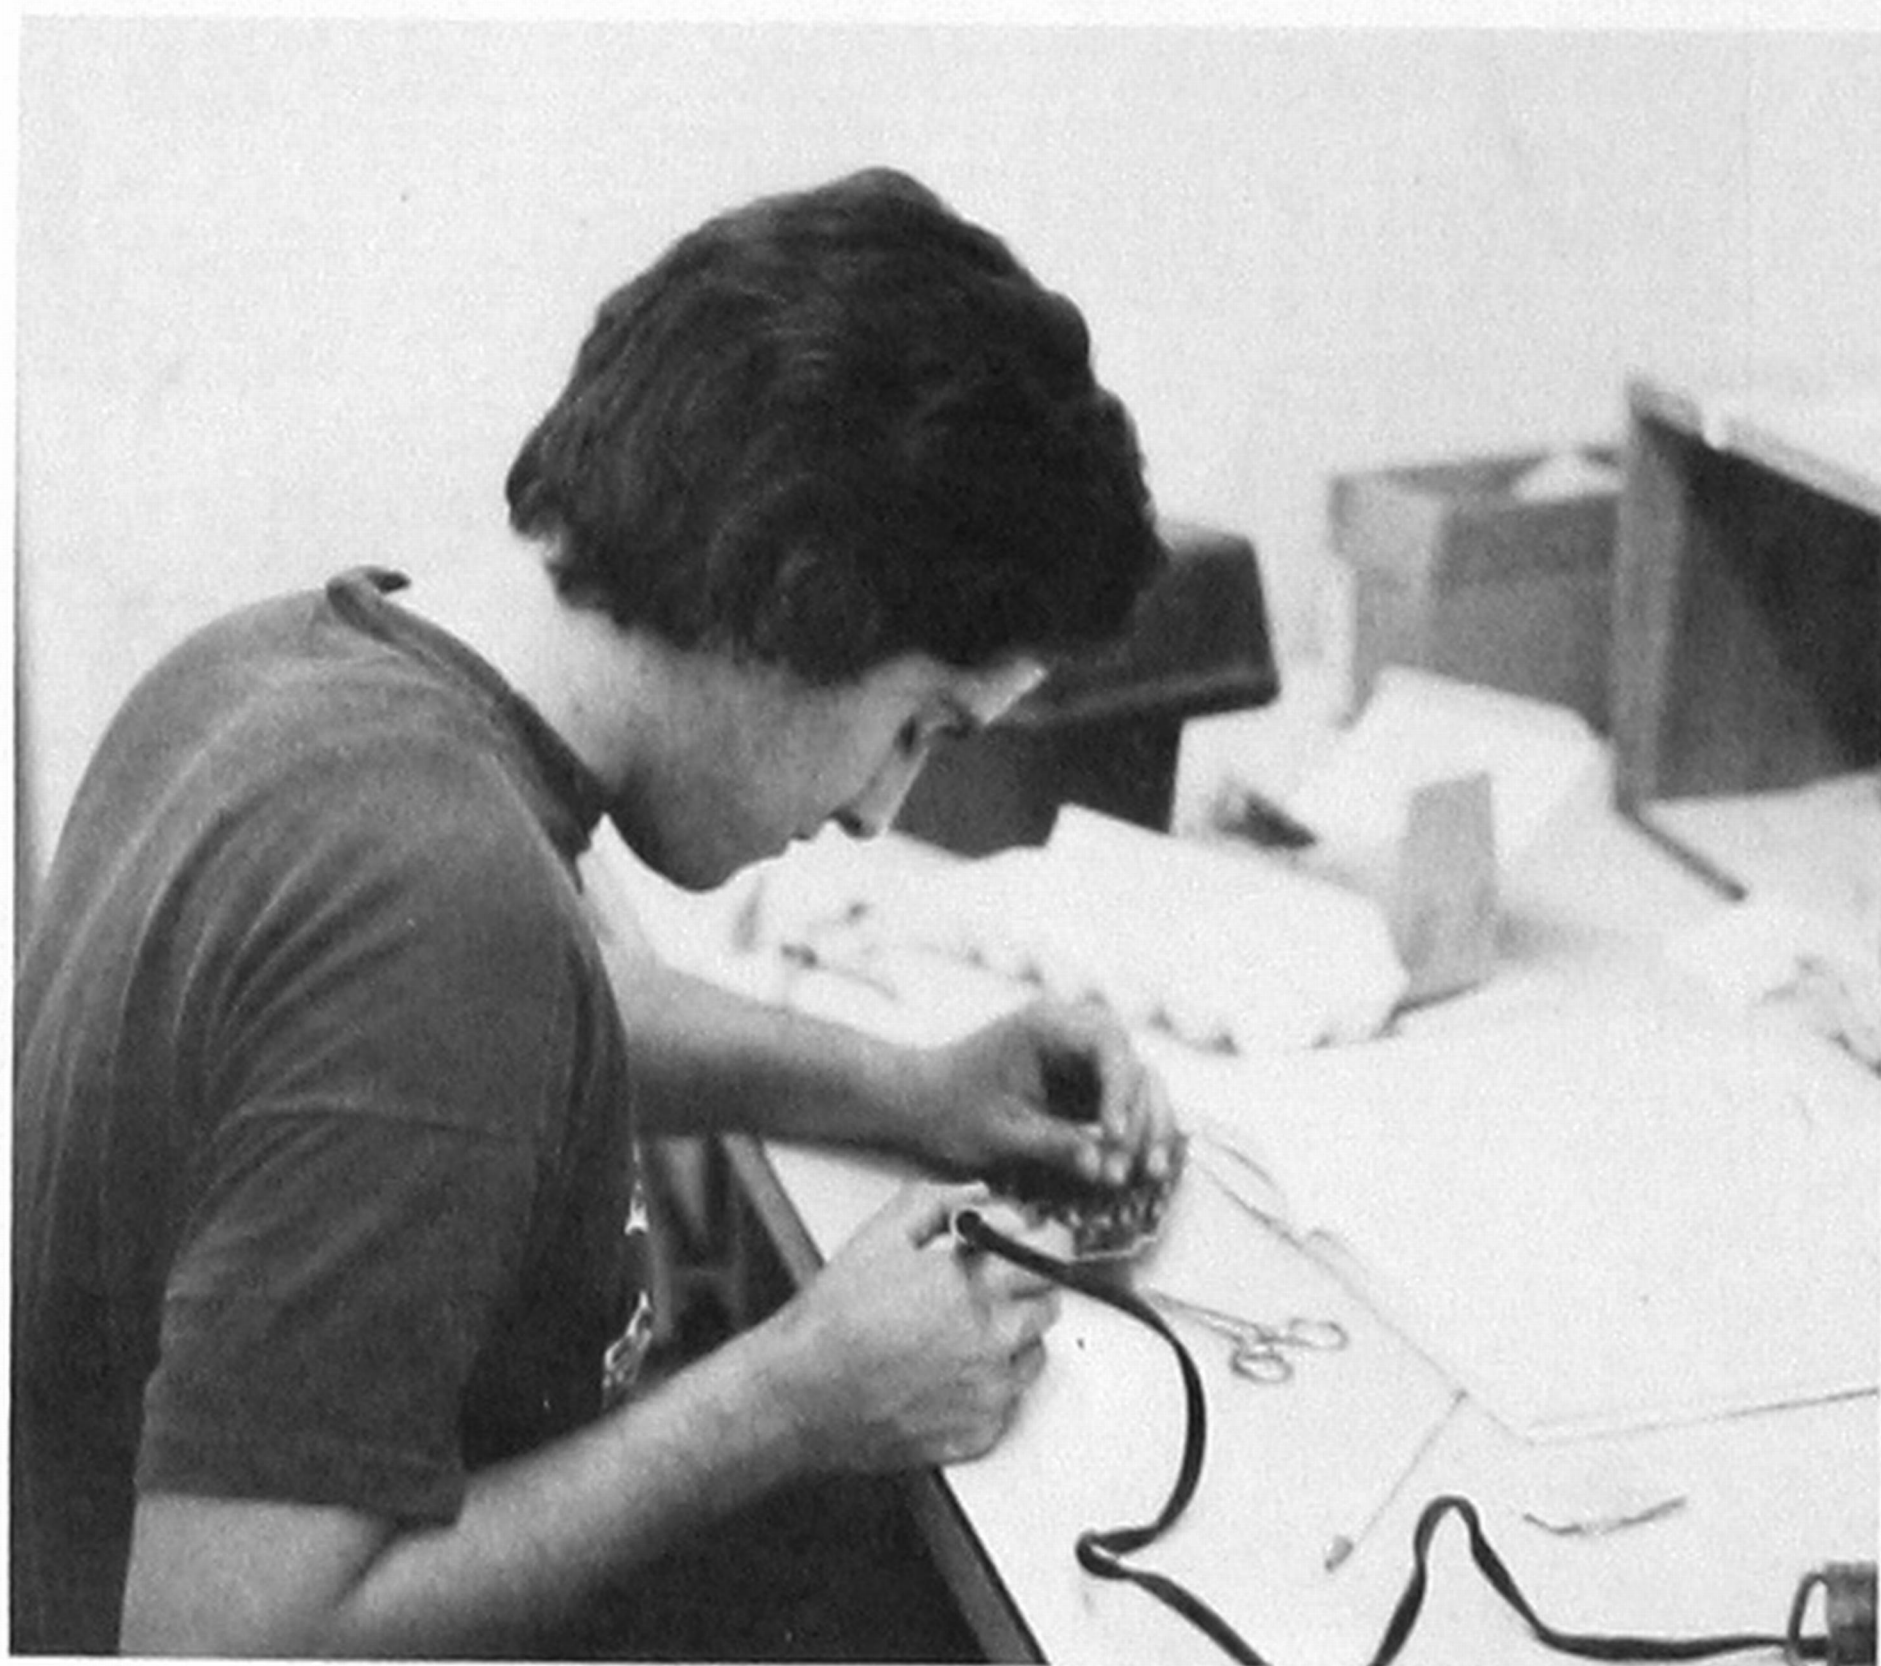

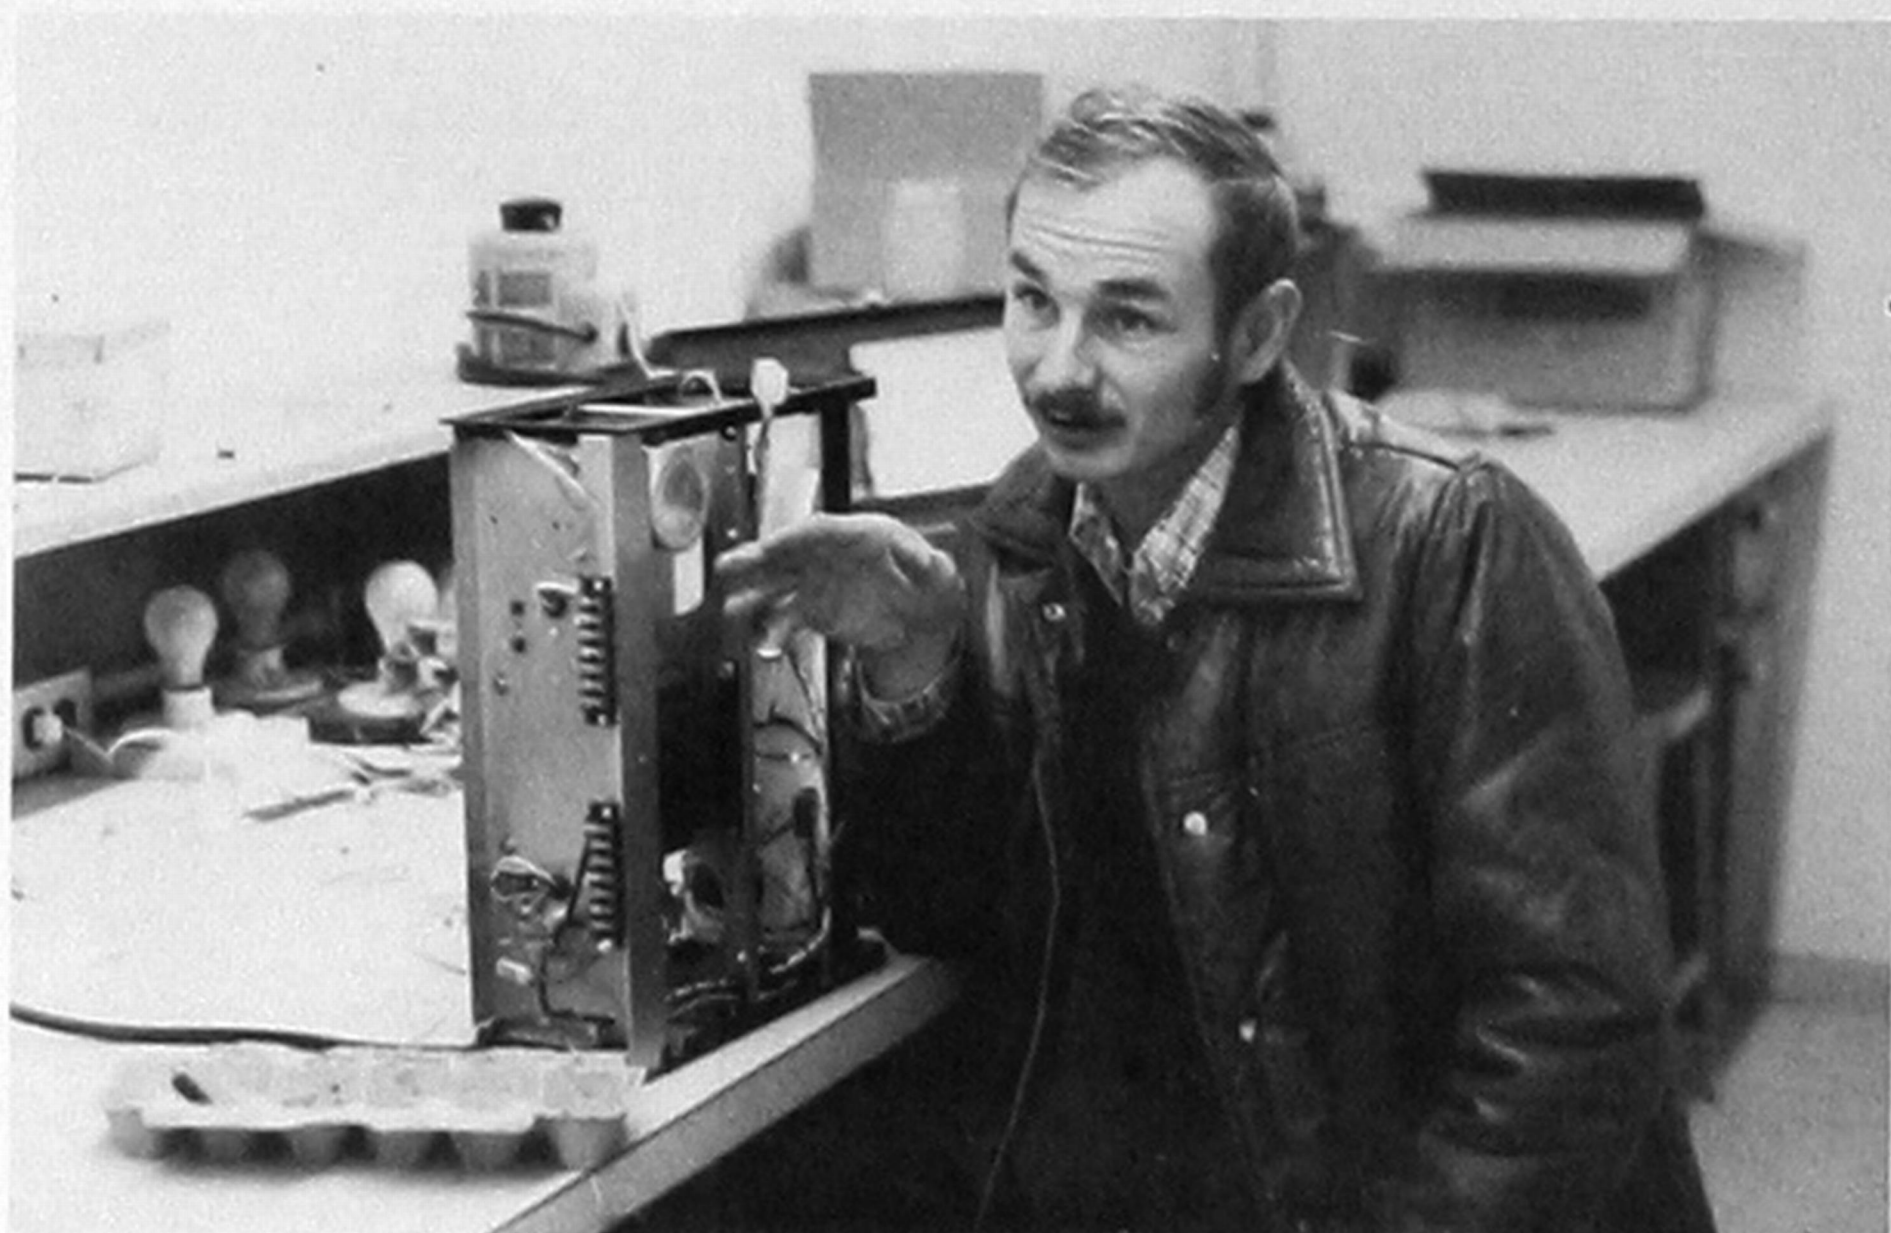

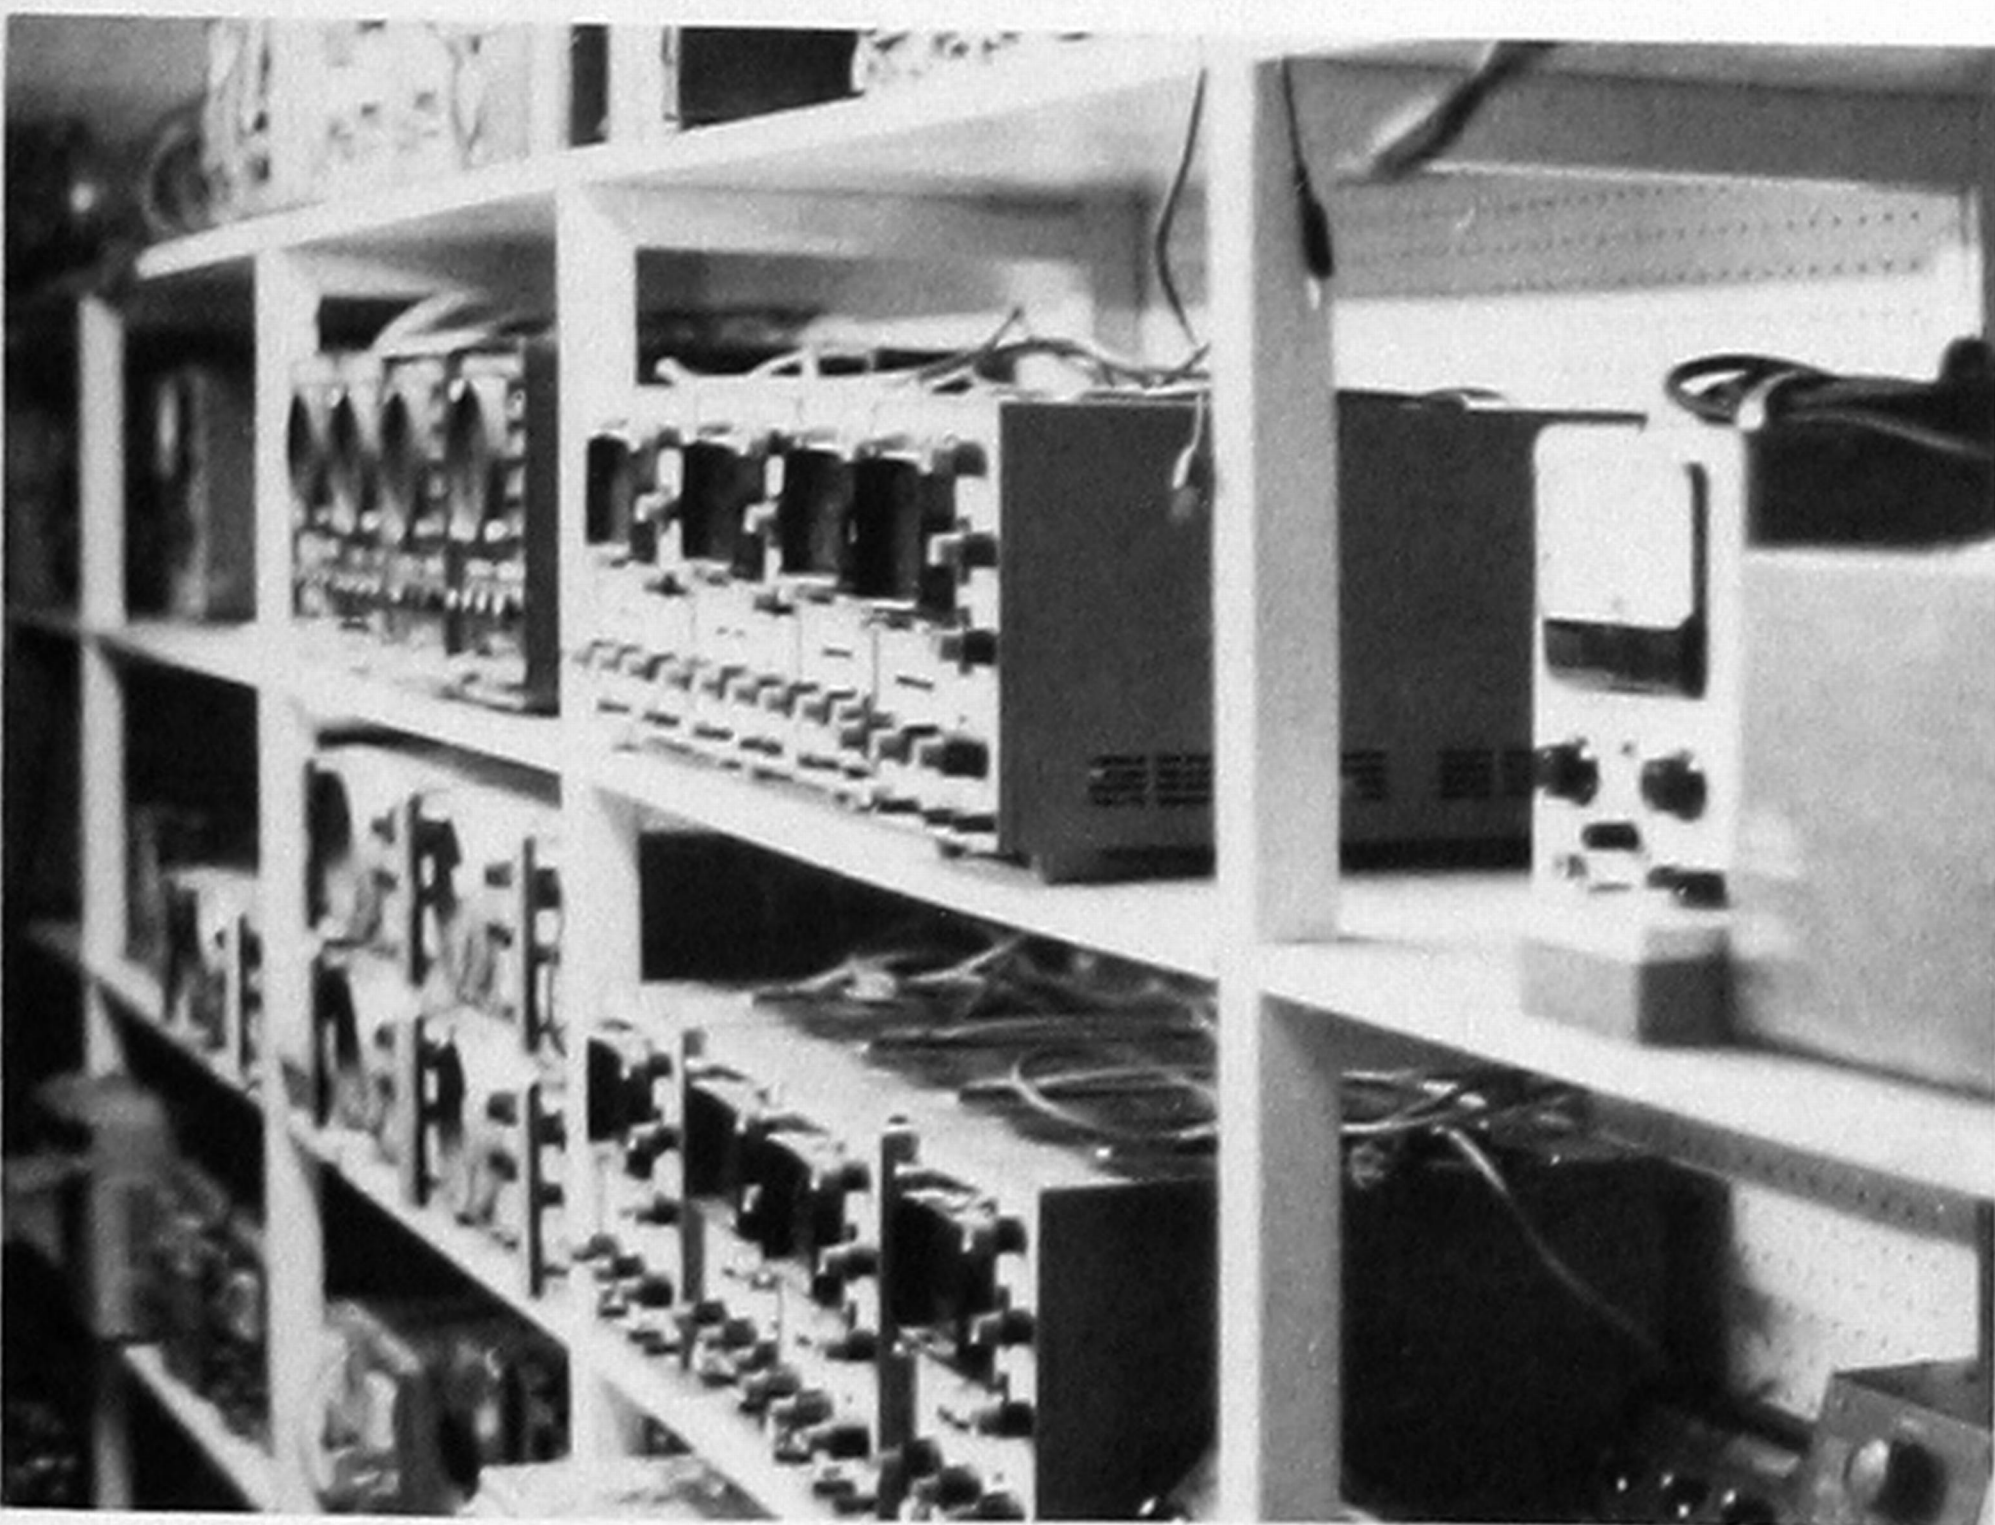

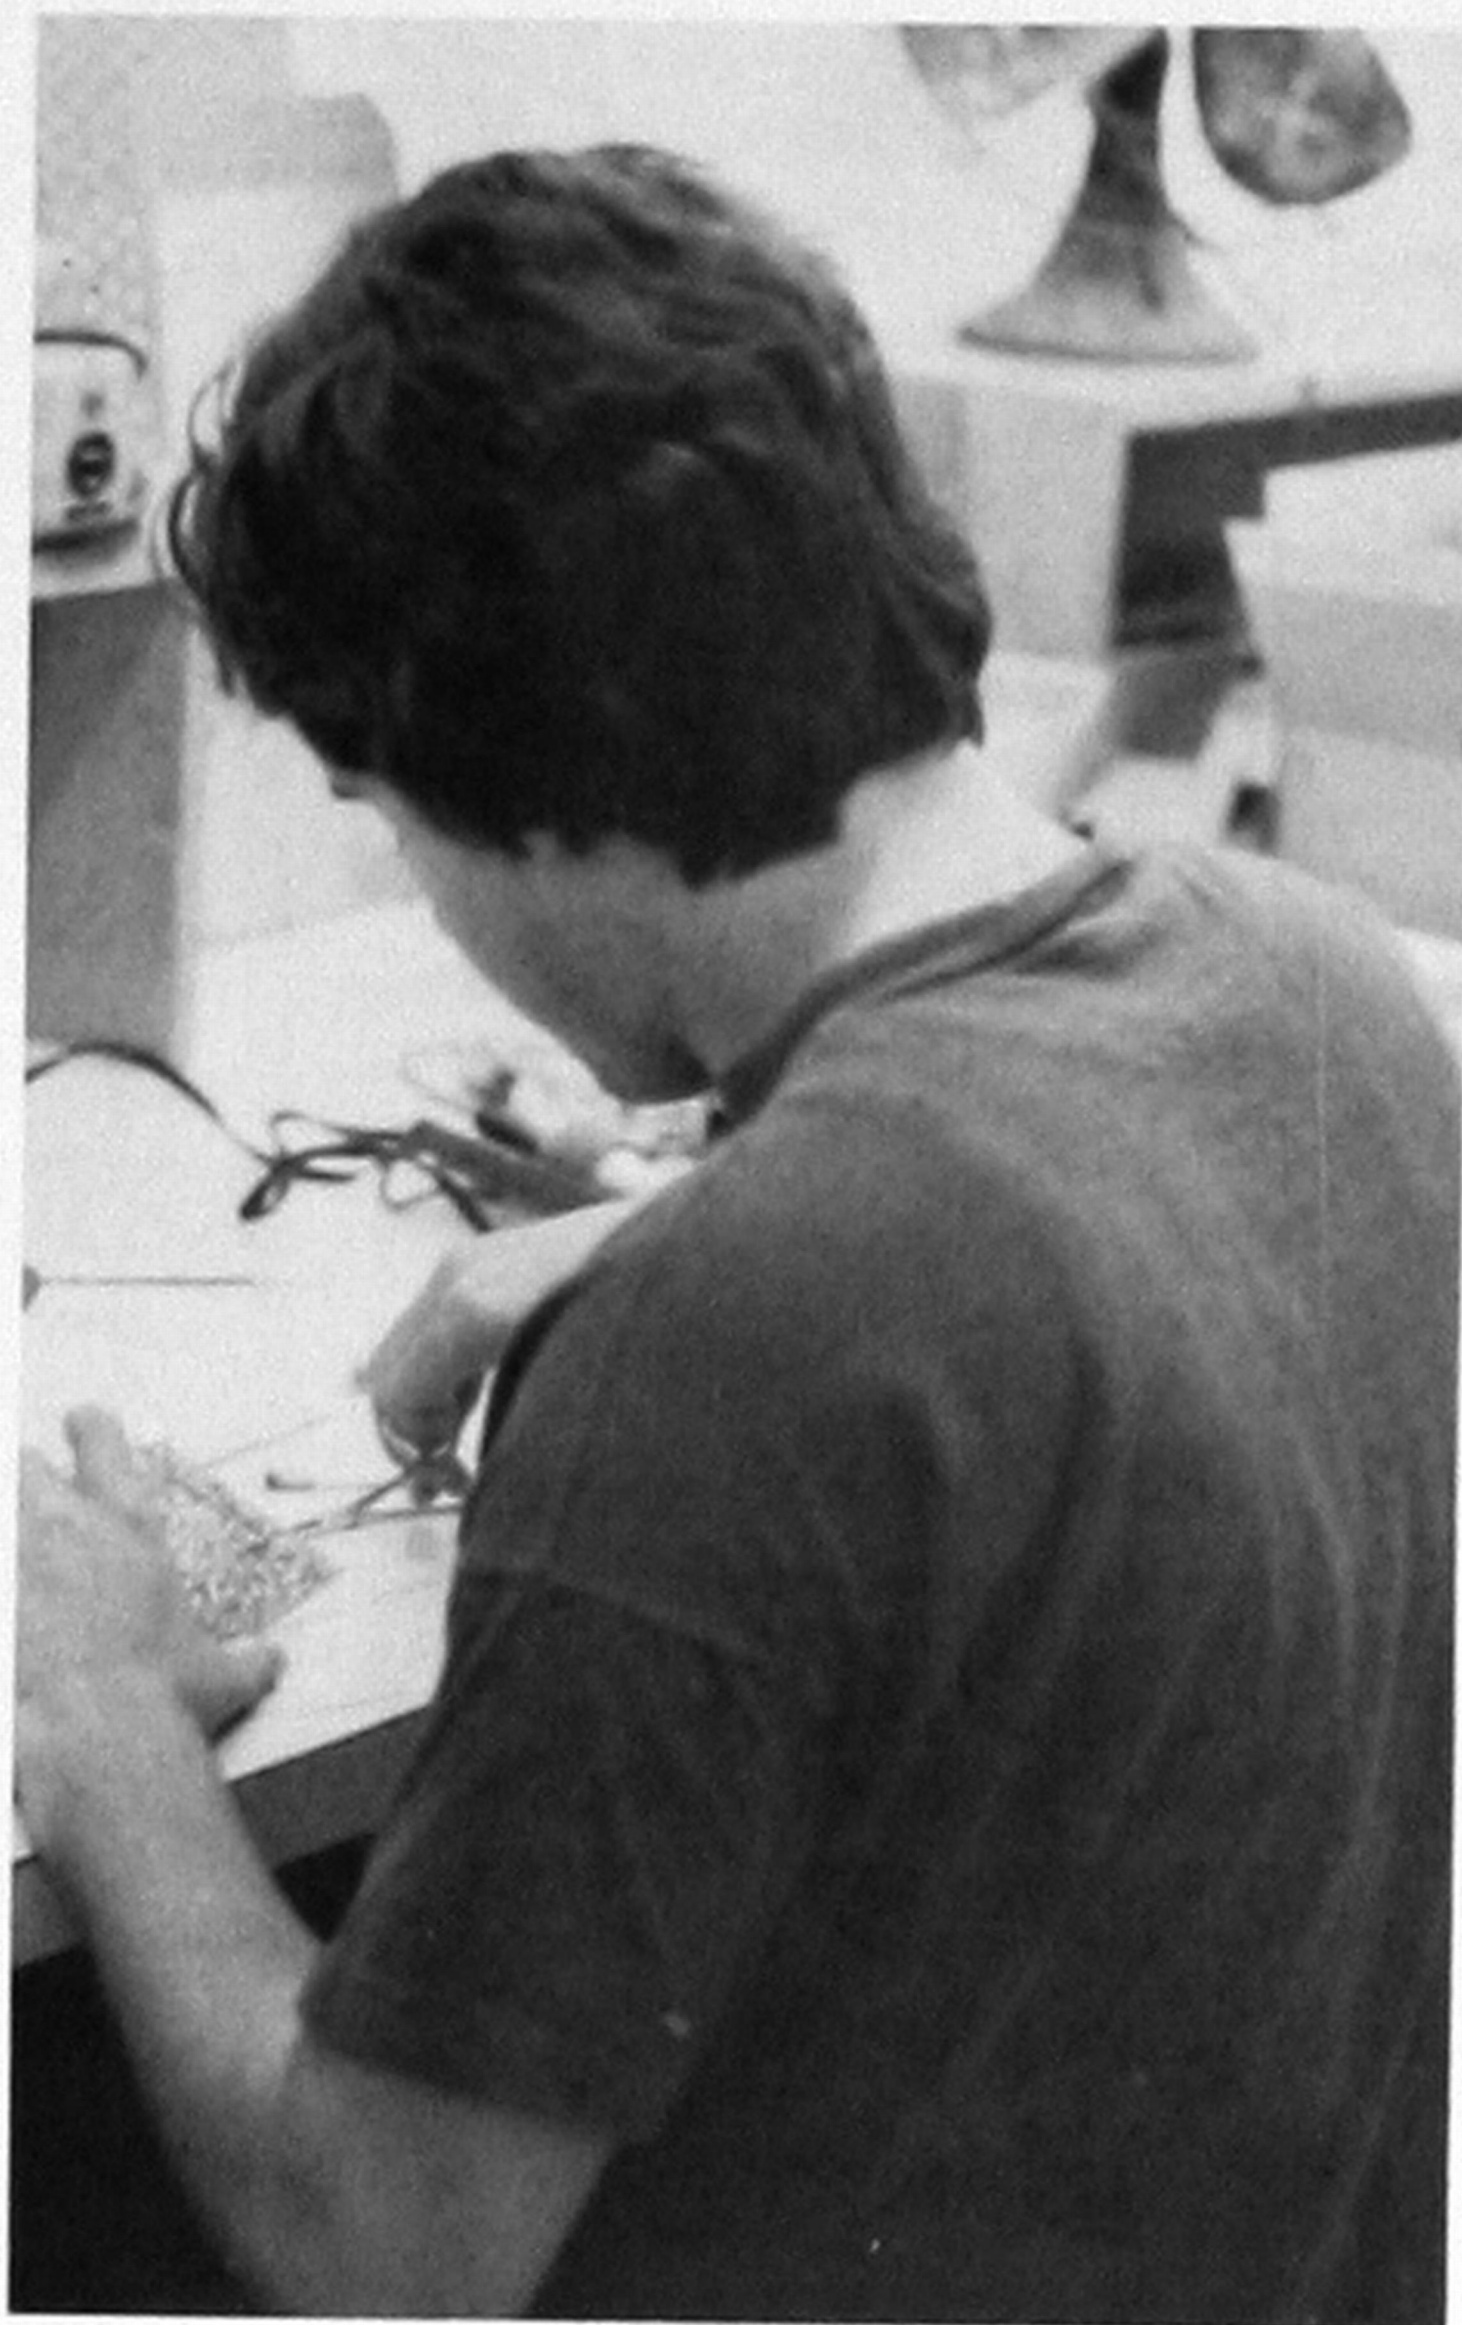

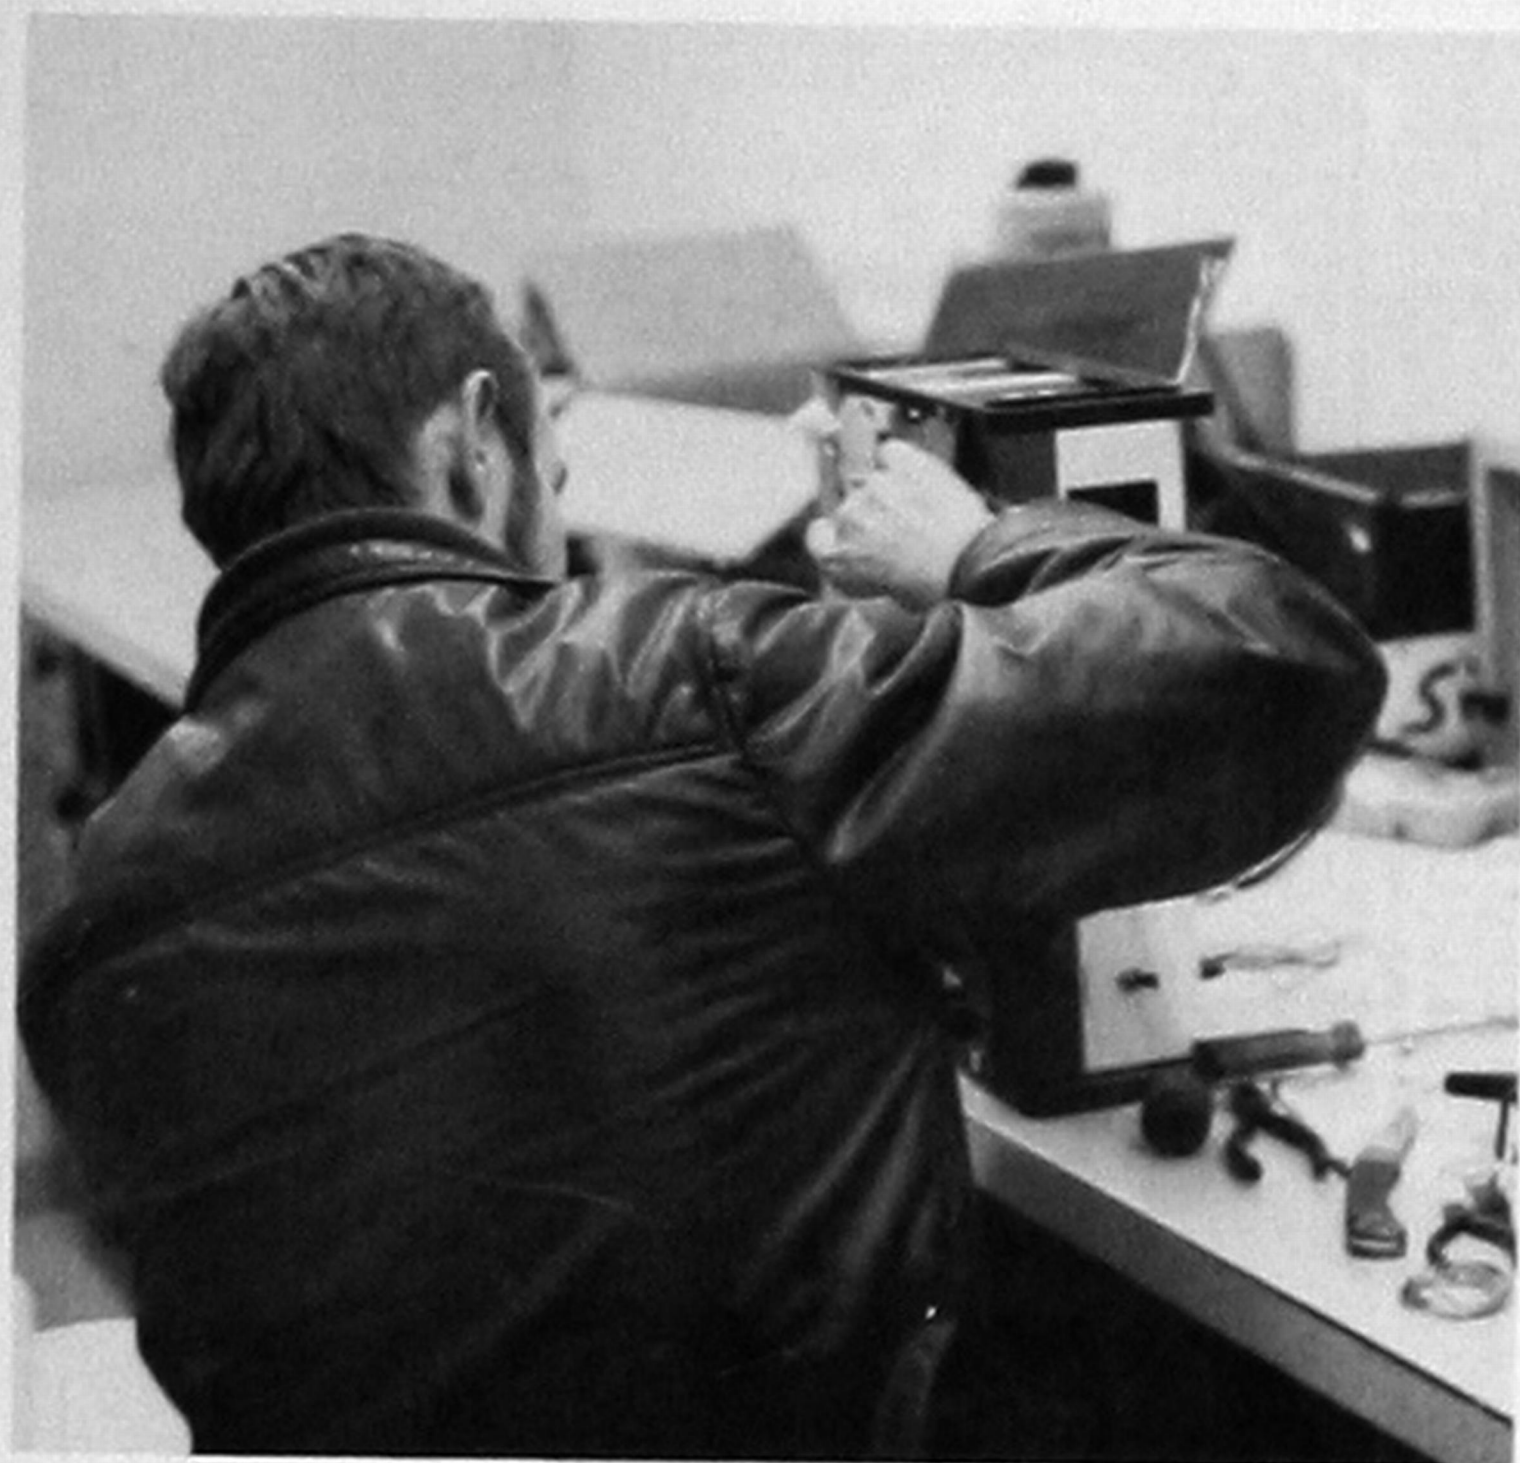

Law enforcement training is an important part of Sayre Junior College. The men and women who attend are vital members of any community and of our student body. They are trained in all areas of police work, and therefore, they are prepared to face any situation which arises. We hope that they will continue to do as many good deeds in the future as they have in the past.

The electronics department at Sayre Junior College provides technical training which prepares students for immediate employment. The department also prepares students for transfer to other institutions to complete advanced degrees. Opportunities for graduates are on the increase for young men and women interested in pursuing an exciting career.

This year all over America we are celebrating our two hundredth birthday. I am sure you will be attending celebrations and viewing programs on television that will remind you of your native heritage, patriotism, and citizenship.

I believe the United States is the greatest nation in the world today. We can make our country even better during this Bicentennial Year if we will follow the words of President Kennedy, "Ask not what your country can do for you, but what you can do for your country."

A good education and a strong belief in God is the answer to many of our problems today.

Continue your education and invite God to help you celebrate your Bicentennial Year and all future years.

Harry Patterson
Harry Patterson, President

Colleges and universities have an amazing number of similarities, and yet each one also has a character which causes it to be unique. Each of you who is a student at SJC has contributed to its institutional character.

You are at that vital point in your lives when you are allowed to devote years primarily to that development of mind which will make you a more effective human being in our complicated society. Through your involvement you will attain your goals, and through your success and achievement SJC's image will acquire added luster and prestige.

We are proud of the people in our college and know you will make an important contribution to the society in which we live.

Baptist Student Union is a program that seeks to involve students in an inward journey. Search the mind, heart, and the soul for answers to life through worship and devotional experiences. BSU is a student organization that coordinates the best efforts of its members in an outward journey of service and ministry to other persons.

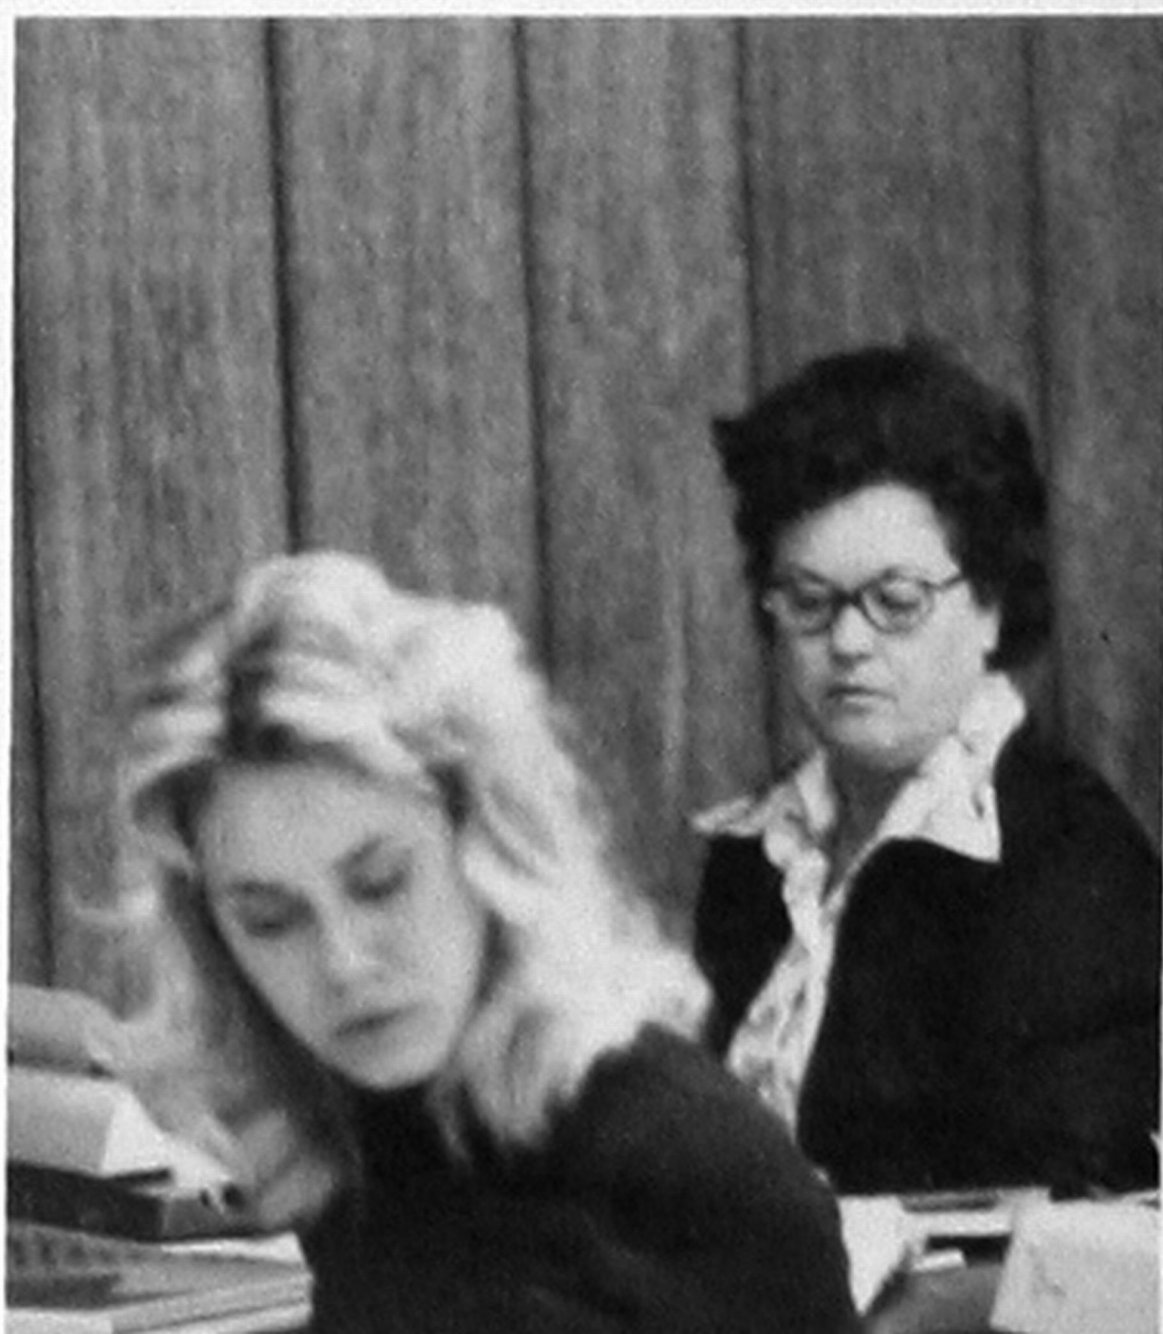

BSU seeks to lead students to a commitment to Jesus Christ as Savior and Lord. BSU helps to facilitate Christian growth through fellowship, recreation, and mission projects.

Sigma Delta Epsilon is a business-student organization designed to develop civic consciousness, social intelligence, and leadership ability in the field of management.

SDE provides recreational, fund-raising, and professional activities. Throughout the year we sponsor such events as the Halloween carnival, dinners, pizza parties, and industrial tours. We work with people in the community to try to provide a better business-oriented society.

We are proud to be associated with such a progressive organization and encourage you to join us.

Throughout the year each student has found moments they wished to keep fresh in their memory. It is the purpose of a yearbook to preserve such events. It has been the hope and effort of the annual staff to capture a few of the many memories of this past school year and present them to you in this edition of the SJC yearbook.

In a continuing effort to upgrade the services provided for its student body SJC began last semester the publication of its first printed newspaper. The paper is known as CAMPUS CLATTER and includes news of interest primarily to the college community. It is issued monthly free to the student body. Technical consultant is Chuck Bacon of the Sayre JOURNAL. Judy Nicholas is faculty advisor. Photographic work is done by W. R. Brown, Sayre.

Student Senate

STANDING, Left to Right: Carla Mackey, Bonnie Pope, Dorothy Baker, Benny Ringer, Larry Mackey, Tom Jurgensen, Sponsor. SEATED, Left to Right: Susie Laxton, Kay Keathley, Vice-President, John Dillard, President, Darla Roper, Secretary, Marveda Parman.

The purposes and intents of the SJC Student Senate are threefold.

First we promote, correlate, and supervise student activities. For example, some of these activities are dances, watermelon feeds, and a student recreation room which contains facilities for ping pong and pool. Funds for these activities come from suppers, donations, and a small fee paid by the student upon enrollment.

Second we bring about a closer relationship between student and faculty, although due to the limited enrollment of our school we do not have many problems in this area.

Our third function is to receive and foster ideas for the enrollment of SJC. These ideas are discussed, revised, and then voted on by the student senate. Resolutions passed by the student senate are submitted to the faculty and other members of the college administration for their opinions and judgement.

John Dillard

John Dillard, President

Health Careers Club

Medical technology is a profession which was born out of a need to determine and isolate causes of specific illnesses. Through the use of proper laboratory procedures, quality control standards and technical know-how, a medical technician aids the physician in diagnosis and treatment of diseases and illnesses.

It is a profession which challenges the imagination, stimulates the curiosity and truly rewards the dedicated individual.

The aim of the Health Careers Club at SJC is to help prepare and upgrade the quality of individuals interested in this field of study. Only through revision, screening, and perfection of practices can the future of medical technology be insured.

Police School

SJC hosts the southwest area basic police seminars under the direction of Vernon Butler, training coordinator for the Southwest Center for Law Enforcement of Norman. The purpose of these schools is to upgrade the law enforcement profession by familiarizing officers with their statutory duties and responsibilities.

You must have a hope to inspire you.

You must have a path to pursue.

You must have an object to work for,

A plan and a purpose in view.

You must have a sense of direction

Or else you'll go drifting along.

You must have a faith that will guide you

When life holds no light and no song.

You must have a stake in the future,

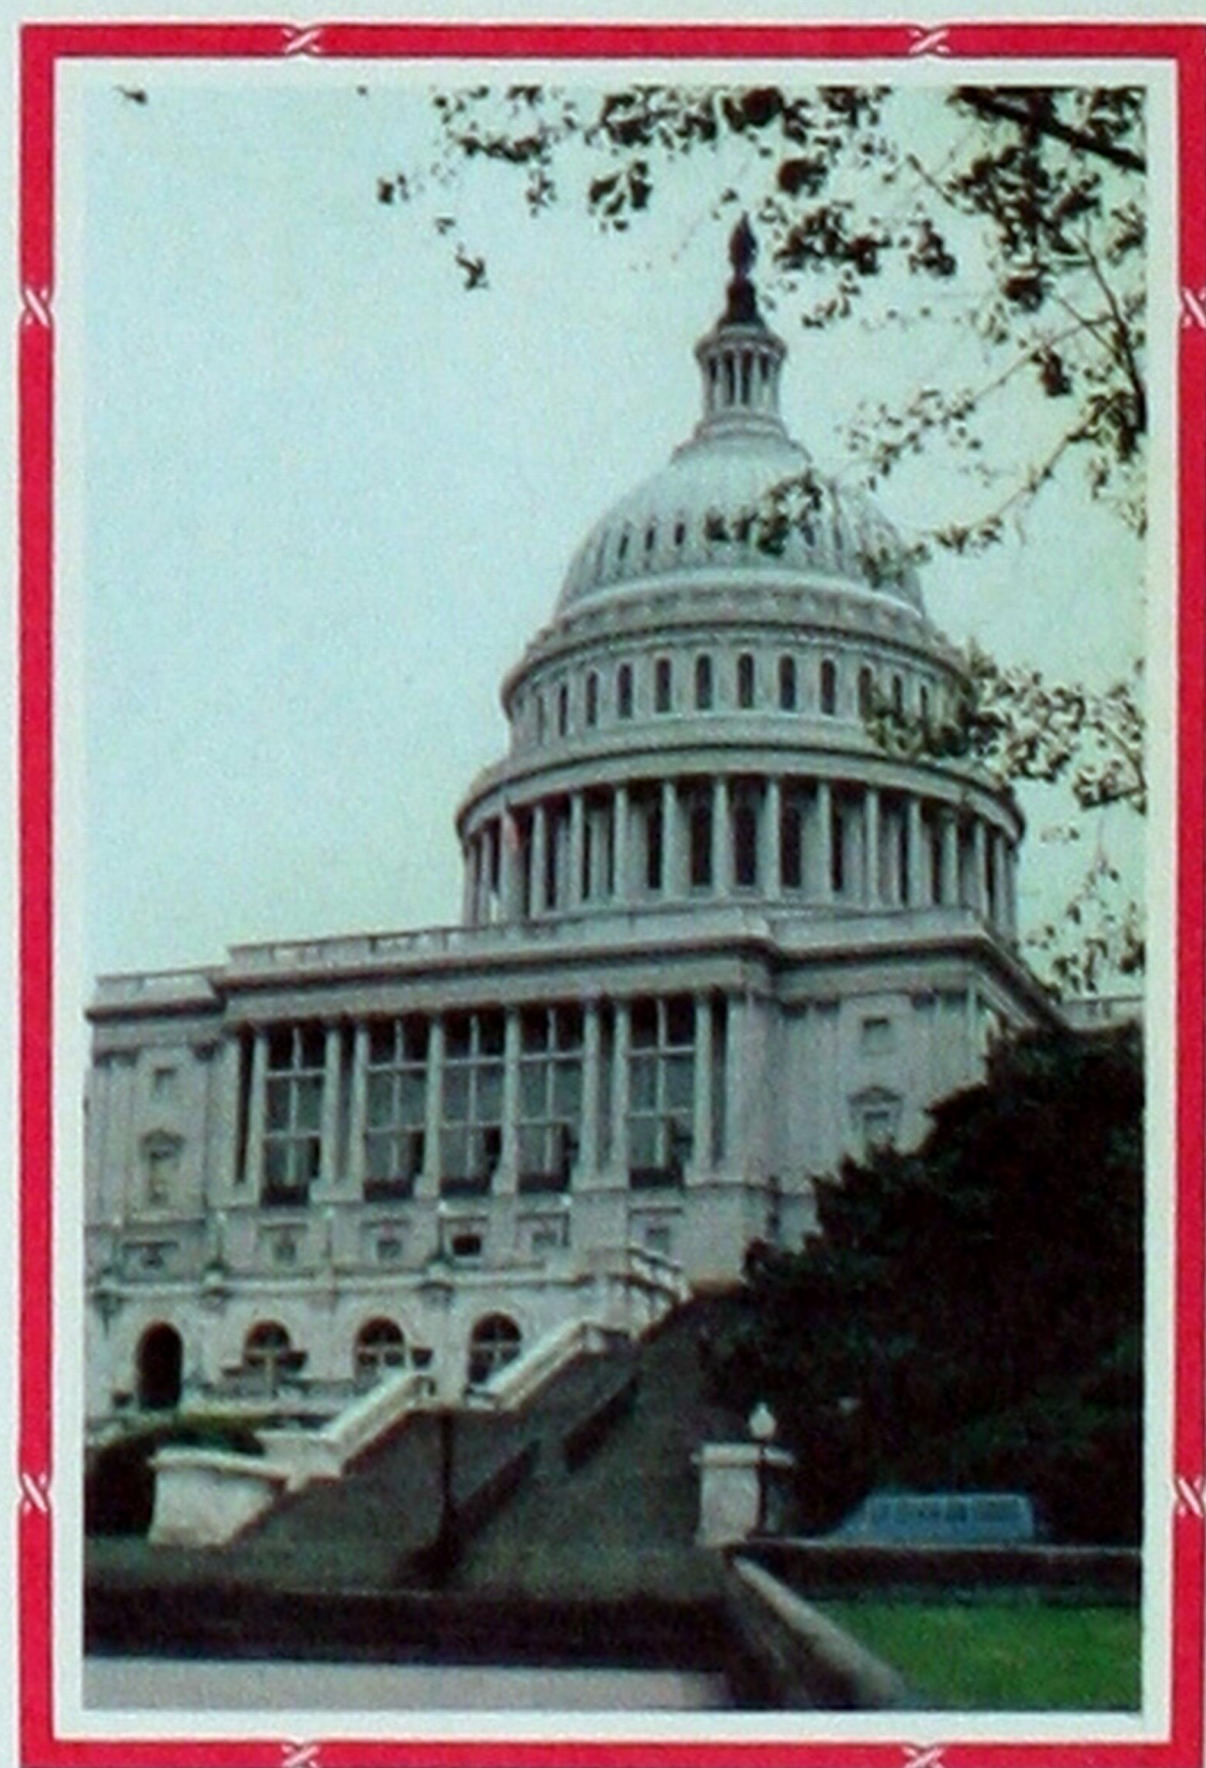

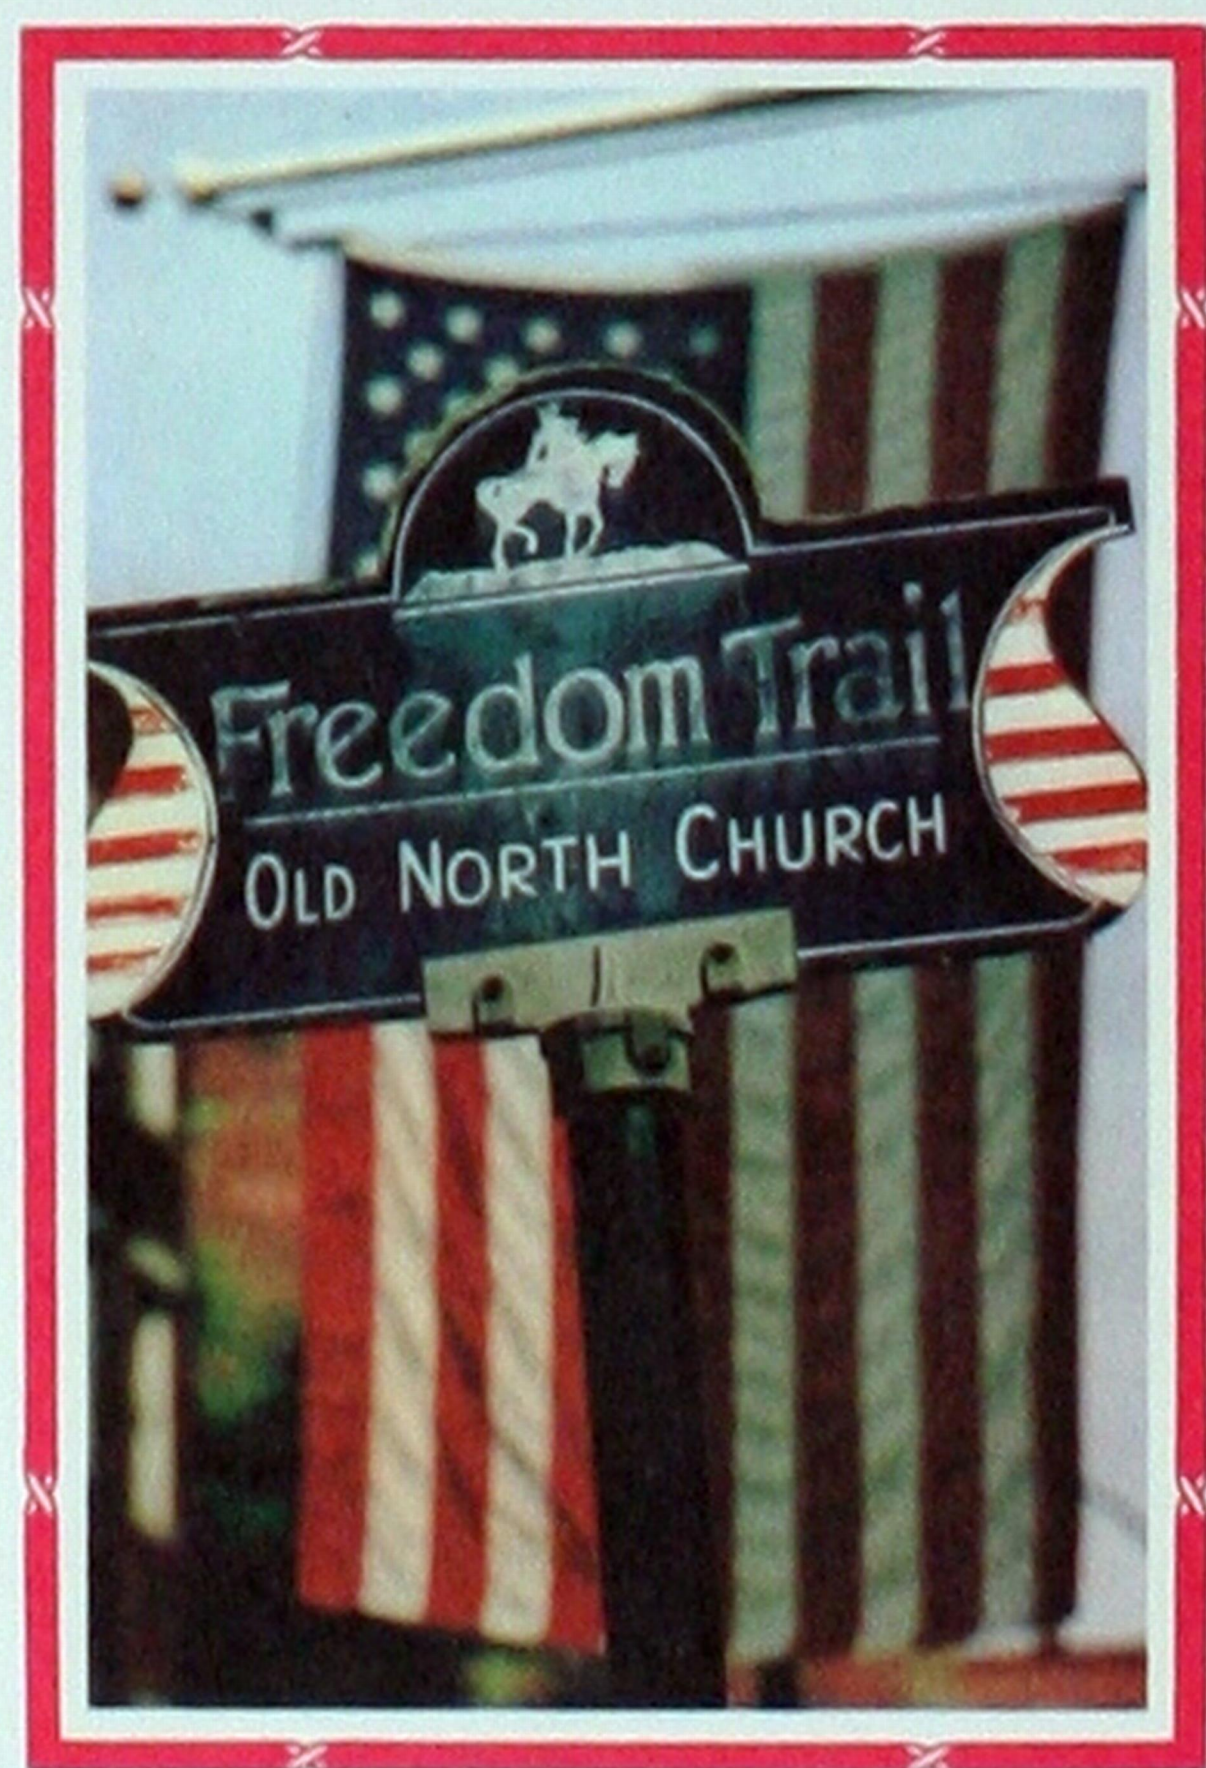

Though swiftly the years may depart.

You'll always have something to live for

If you have a dream in your heart.

Patience Strong
