Business Dept.

SJC offers programs leading to degrees in business and secretarial science. These programs prepare the secretarial student to begin work in offices after only one or two years of study. They also provide the opportunity for those working to take refresher courses. For the non-secretarial student, the general business program enables them to continue their education at a four-year college.

We are living in the greatest country in the world today. Our educational system is one of the reasons our country has come so far in such a short time. With the federal assistance, student loans, and scholarship programs that exist today, any student desiring an education can find a way to complete a degree. A good education and a strong belief in God is the answer to many of our problems today. The administration and faculty of Sayre Junior College welcome you to come and visit with us about your college education.

Harry Patterson

Harry Patterson, President

The diversity of American colleges presents a dazzling but sometimes baffling array to men and women who have to make a conscious decision about their education. It is my hope that this year has been both interesting and profitable and that you have been able to establish or attain your goals for the future.

You are at that vital point in your lives where you are allowed to devote years primarily to that development of mind which will make you a more effective human being in our complicated society. Through your involvement you will attain your goals, and through your success and achievement Sayre Junior College's image will acquire added luster and prestige.

We are proud of the people in our college and know you will make an important contribution to our society.

This year began an exciting new era for BSU at Sayre Junior College. We completed a new building which provided permanent facilities for our ministry here. New opportunities for Christian growth and development have been available and a place for fellowship and fun, are the result of our building. Students participating in Bible Studies, singing group, athletics, seminars, parties, and retreats.

Brad Maddoux is now President and Lonnie Olson Vice-President.

The main objectives of the Student Senate are to maintain a cooperative relationship between the students, and from students directly to the faculty and administration.

These objectives were accomplished by sponsoring several student participation activities. This year several dances, tournaments, and a spaghetti supper were held.

I would like to personally thank everyone who participated, and those who attended the Student Senate activities. Also a special thanks from the entire Student Senate and myself to our sponsor, Mr. Clyde Lewis. Without his help, the above things could not have been accomplished.

Good luck in the future

The fields of medical technology, X-ray technology, and medical assistant are challenging and rewarding careers. Sayre Junior College continues to turn out energetic and capable people to meet these challenges.

As president of the Health Careers Club, I would like to offer my thanks to all club members for making the club a success. It is because of people like you that the demand for qualified health care professionals will continue to be met.

The annual staff has endeavored to capture some of the memories of the past year in this, the 1979 edition of the SJC annual. Not only are the good times represented but also the times of hard work. May you enjoy this year's annual in the years to come.

The SJC CAMPUS CLATTER is published each month to help keep the student body informed about their school and upcoming events on campus. It is distributed to the students free of charge, and also sent with the Sayre JOURNAL. Mrs. Judy Nicholas is the faculty advisor and Mr. Chuck Bacon serves as technical consultant.

TO MY FRIENDS
Pam Hunter

I look at the past with a soft sadness,
At the future with apprehensive wishfulness,
For my life has not been all I have wanted,
And the future holds not to promises but to hopes.
But today my thoughts are filled with peace
With a sunlight contentedness and a drowsy enthusiasm
For I know the laughter of children,
The warmth of kittens and the blueness of the sky.
I know the dances of the trees, the poetry of the earth
And I hear the songs of wind.
But most of all, I know the comfort of friendship,
the comfort of a friend like you.
These things depend not upon yesterday or tomorrow
They are what makes my life worthwhile
They are what make today.
