

Engineering Technology Day is Tuesday at SWOSU

03.28.2014

High school students from western Oklahoma will be attending Engineering Technology Day this Tuesday, April 1, at Southwestern Oklahoma State University in Weatherford.

The event is for high school juniors and seniors that are interested in a career in engineering technology. Around 60 students are expected to participate in the day's activities that run from 9 a.m. until 12:30 p.m.

Students will have the opportunity to take a faculty-guided tour of the Engineering Technology. The high school students can meet current SWOSU students, learn about degree options and career opportunities. Students also get to learn about courses offered at SWOSU and the "hands on" activities in the department. On the tour, students will see state-of-the-art computers, electronics and manufacturing labs.
