Message from SWOSU President Dr. Diana Lovell

COVID vaccinations are available now!

SWOSU is returning to normal operations, and our students want to be on campus. The university strongly encourages everyone to get vaccinated as soon as possible.

Even though a clinic has been set for August 20 on campus, students and employees are inquiring about getting a FREE shot now. Both Walgreens and Walmart in Weatherford offer walk-in service but prefer appointments. Online appointments can be made at any Walgreens and Walmart in the state, but they might require appointments. Here is the Walgreens link: <https://share.swosu.edu/Walgreens> and for Walmart: <https://share.swosu.edu/Walmart>

Also, the Custer County Health Department has certain days that vaccinations are given in Weatherford and Clinton. Please call 580.772.6417 in Weatherford and 580.323.2100 in Clinton for more information.

The Delta form of COVID-19 is faster and much stronger than the original (alpha) form of the virus. Please don't wait to protect yourself and others.

Soon we will have vaccinations and testing on campus! If you want to make an appointment at the August 20 clinic at the Pioneer Cellular Event Center, call 580.774.3025. #GetYourCovidVaccination #Open&Prepared!

Dr. Diana Lovell

SWOSU President
