

Plant Sale Planned Friday by SWOSU Biology Club

04.17.2013

Southwestern Oklahoma State University Biology Club members and sponsors are getting ready for the club's popular plant sale this Friday. They are: (front from left) Abby McKisson, Liz Jansing, Amber Rymer and Tyler McLemore. Middle—Mandi Foutch and Angie Hoover. Back row—Dr. Lisa Boggs, Timothy Stein, Claudia Nkeih and Dr. Bill Seibert.

Southwestern Oklahoma State University's Biology Club will host its spring plant sale this Friday, April 19, from 8 a.m. to 4 p.m. in the Memorial Student Center lobby on the Weatherford campus. The public is invited.

The plant sale is the primary fundraiser for the club. According to faculty sponsors Dr. Andrea Holgado and Sue Ball, the biology club uses the money to support various community and academic activities. In the past, the biology club has supported Relay for Life, helped fund a scholarship within the department, and pay registration fees to send biology students to scientific meetings across the nation.

The club's students, under the supervision of Dr. Bill Seibert, have propagated and maintained the plants throughout the semester. The sale will feature both small and large sizes at very reasonable rates. Cacti, ferns, succulents, geraniums, tomatoes, peppers, rubber trees and papyrus are just a few examples of what will be available. Some plants will go faster than others, and Holgado said the club can reserve plants for students until 4 p.m.

Additional information is available by contacting SWOSU Biology Club President Mandi Foutch at foutchm@student.swosu.edu or by phone 580.922-1409
