

# Picture Opportunity with the New Bulldog

05.03.2010

Southwestern Oklahoma State University graduates have an additional picture opportunity during graduation weekend.

Graduates can pose by the new bulldog sculpture on the Weatherford campus. The new bronze bulldog, which is approximately 4 feet tall and 5 feet long, is located just south of the clock tower.

The sculpture was designed and built by Frank Moran of Weatherford. The SWOSU Alumni Association Board of Directors organized the project, which was made possible by Jim Andrews and E. Vann Greer Andrews of Edmond who generously donated money to cover the entire cost of the \$30,000 project.
