In the discussion that followed the Chair and members of the current Distance Education and eLearning Council presented the positives of switching back to BackBoard because of the advance features that it offers, the lag in D2L updated (because we are a part of the consortium), and also the 50% discount that is currently being offered for the next 5 years on BB products. The senate discussed the problems dealing with the constant change from one platform to another and the timeline involved if the change takes place. The discussion also considered the percentage of faculty that use D2L and power users. A survey was being sent out to determine the depth of use for D2L among faculty right now.

FS Motion 2013-03-01

FS recommends that SWOSU human resources look into the possibility of adding health insurance options and/or exchange programs from the Affordable Health Care Act, in addition to the currently offered BlueCross/BlueShield coverage. These plans would be available for employees and their dependents.

Rationale:
The current dependent care coverage for spouse and children costs $1000 per month. These costs are beyond the means of most young employees and their families. If there are any options in the Affordable Health Care Act that can address this problem, then those options should be aggressively pursued.

The above motion was passed as amended.
