Guide Book

Hosted by Northwestern Oklahoma State University
Enid's Central National Bank Center
March 9, 2018

WELCOME

On behalf of the Council on Research for Regional Universities and Dr. Janet Cunningham, President of Northwestern Oklahoma State University (NWOSU), I am pleased to welcome you to the 19th annual Oklahoma Research Day (ORD). Again this year, Enid's Central National Bank Center was chosen for its central locale to NWOSU's Enid campus, its attractive art-deco style, and its ability to house all events of the day under the same roof.

Oklahoma Research Day 2018 would not have been possible without significant financial support from the Oklahoma State Regents for Higher Education (OSRHE); Oklahoma Established Program to Stimulate Research Excellence (EPSCoR); National Science Foundation; the Oklahoma IDeA Network of Biomedical Research Excellence (INBRE) - National Institutes of Health; NWOSU's Office of Graduate Studies; and the Aurora Learning Community Association (ALCA). Additionally, Oklahoma Research Day is supported annually by Oklahoma's Regional Universities, which include Cameron University, East Central University, Northwestern Oklahoma State University, Southwestern Oklahoma State University, Southeastern Oklahoma State University, and the University of Central Oklahoma. Finally, Jump Technologies; NWOSU's Institute for Citizenship Studies; NWOSU's Department of English, Foreign Language, and Humanities; and all staff members from the Central National Bank Center deserve especial thanks for their hard work in preparing for this special day. Also deserving thanks are Professor Mark Bagley, Bruno Miguel, and Richard Fischer for designing and maintaining the ORD mobile app.; and Coach Matt Walter and NWOSU's football team for putting together the poster boards for display. Dr. Marc Decker and Professor Karsten Longhurst also deserve thanks for providing banquet entertainment from NWOSU's jazz ensemble and the University Singers.

I also am glad to use this opportunity to thank all supporters, faculty, staff, and students for attending Oklahoma Research Day this year. I believe that you will find that NWOSU has provided an atmosphere conducive to sharing and networking your current research methodologies and findings. NWOSU is especially proud to help you connect with other members of Oklahoma's academic community. The scope and breadth of research topics shows the hard work and innovation that is occurring by college students throughout our state.

With best wishes,
Shawn Holliday, Ph.D.
