

SWOSU Celebrates 100th Birthday of Old Science Building

10.18.2010

SWOSU President Randy Beutler cuts the ribbon during the centennial rededication ceremony of the Old Science Building on the SWOSU campus during homecoming activities held October 15-16 in Weatherford. Nearly 300 people gathered for the Friday afternoon ceremony to celebrate the 100th birthday of the oldest building on the SWOSU campus. SWOSU hosted an open house on both Friday and Saturday with special displays throughout the building. The Old Science Building was constructed with a low bid of \$95,000.10 and continues to be a popular and highly-used building at SWOSU.
