

# SWOSU Website Goes Mobile

11.22.2011

The SWOSU website has gone mobile.

Users now viewing [www.swosu.edu](http://www.swosu.edu) on mobile devices will see a more user-friendly version of the SWOSU website, according to Anjana Patel of the SWOSU Web and Creative Services Office.

If someone wants to view the full site version of the web page, it can be accessed from the full site link provided at the bottom of the mobile pages.

Patel said the alumni, foundation and SWOSU-Sayre websites can be accessed via mobile phones but are available on the full-version only. These areas will be converted in the near future.

SWOSU also has a goSWOSU mobile app that is available for additional interactive features.
